

[3/21/2010 4:44:22 PM] *** Mumbai Testers added Brian Osman, priyankakoya, Thamilventhan K ***

[3/21/2010 4:45:12 PM] Mumbai Testers: Hi All!

[3/21/2010 4:45:51 PM] priyankakoya: hii

[3/21/2010 4:46:09 PM] Mumbai Testers: This is Amit your facilitator for the day!

[3/21/2010 4:46:23 PM] Mumbai Testers: Hi Priyanka!

[3/21/2010 4:46:30 PM] priyankakoya: Hi Amit

[3/21/2010 4:47:43 PM] priyankakoya: can you just brief me on how this is done

[3/21/2010 4:48:03 PM] priyankakoya: this is my first session..

[3/21/2010 4:48:42 PM] *** Mumbai Testers added Deviprasad ***

[3/21/2010 4:49:02 PM] Mumbai Testers: Great! to hear that this is your first session.

[3/21/2010 4:49:33 PM] Mumbai Testers: I'd suggest you to get register on <http://weekendtesting.com> for more.

[3/21/2010 4:49:36 PM] Mumbai Testers: What we do?

[3/21/2010 4:50:05 PM] priyankakoya: yup iam a registered usere there.. i have been with banglore testers since few months

[3/21/2010 4:50:29 PM] *** Mumbai Testers added Marlena Compton ***

[3/21/2010 4:50:40 PM] Mumbai Testers: every weekend we spend two hours testing - improvise our skills. We interact with testers from other part.

[3/21/2010 4:50:54 PM] Mumbai Testers: Hi Marlena...welcome to MWT.

[3/21/2010 4:51:14 PM] Marlana Compton: Hi, glad to participate this week

[3/21/2010 4:51:23 PM] Mumbai Testers: :) Great!

[3/21/2010 4:51:36 PM] Mumbai Testers: So what is the time up there right now?

[3/21/2010 4:51:54 PM] Mumbai Testers: @Priyanka - you got me or you still need more information

[3/21/2010 4:51:59 PM] Marlana Compton: It's 10:21 pm on Sunday evening.

[3/21/2010 4:52:33 PM] Marlana Compton: Hi Brian, good to see you here as well. Is it the same time in NZ?

[3/21/2010 4:52:35 PM] priyankakoya: got u amit.. thanx for the breif intro

[3/21/2010 4:53:01 PM] Mumbai Testers: @priyanks - welcome and as you take part in this session you will learn more!

[3/21/2010 4:53:36 PM] Mumbai Testers: @Marlena - Brian seems to be not awake! just had a chat little with him sometime back. He promised to be awake ... :)

[3/21/2010 4:54:20 PM] Mumbai Testers: So we will be starting by 5pm IST ...right now I see only two of you out there! No worried may be people will join us in some time.

[3/21/2010 4:54:21 PM] Marlana Compton: No worries

[3/21/2010 4:54:58 PM] Mumbai Testers: @Marlena - would you like to share your exp for any session so far?

[3/21/2010 4:55:21 PM] Marlana Compton: Sure

[3/21/2010 4:56:35 PM] Marlana Compton: I participated with the Europe testers a couple of months ago. We tested google calendar using Michael Bolton's FCC CUTS VIDS heuristic.

[3/21/2010 4:56:49 PM] priyankakoya: ok

[3/21/2010 4:57:32 PM] Mumbai Testers: Great!

[3/21/2010 4:57:49 PM] Marlana Compton: We each took some of the heuristics and applied them. I decided that some of the heuristics belong together. Was very interesting approach.

[3/21/2010 4:58:25 PM] Marlana Compton: oh...mistake...those heuristics are Mike Kelly's.

[3/21/2010 4:58:46 PM] priyankakoya: that sounds to be interesting.. great!!

[3/21/2010 4:58:48 PM] Mumbai Testers: @Marlana - nice.

[3/21/2010 4:59:01 PM] Mumbai Testers: @Priyanka - it is indeed!

[3/21/2010 4:59:20 PM] Marlana Compton: Here's the link:

<http://www.michaeldkelly.com/archives/50>

[3/21/2010 4:59:58 PM] Mumbai Testers: Okay! Thanks for the link.

[3/21/2010 5:00:10 PM] Mumbai Testers: Okay we should start now!

[3/21/2010 5:01:13 PM] Mumbai Testers: Here is the mission details:

[3/21/2010 5:01:23 PM] Mumbai Testers: Mission: Felipe want us to convince them the problem is INDEED a problem. Handy mnemonic for oracles: HICCUPP by James Bach for your reference. Can be found out at:

<http://www.testingreflections.com/node/view/2635>

Test the application for the relevant parameters.

Application URL: <https://sourceforge.net/projects/klavaro/>

[3/21/2010 5:01:44 PM] Mumbai Testers: @Marlena - some more heuristics:)

[3/21/2010 5:02:07 PM] Mumbai Testers: @Deviprasad - welcome!

[3/21/2010 5:02:23 PM] Deviprasad: Hi All

[3/21/2010 5:02:29 PM] Mumbai Testers: if any question please do raise them!

[3/21/2010 5:02:42 PM] Deviprasad: glad to be part of this

[3/21/2010 5:02:54 PM] Mumbai Testers: @Deviprasad - glad to hear that!

[3/21/2010 5:03:29 PM] Mumbai Testers: @All - any doubts, queries or need more clarification?

[3/21/2010 5:03:56 PM] Marlena Compton: specific heuristics to be used today or testers choice?

[3/21/2010 5:04:12 PM] Deviprasad: okay

[3/21/2010 5:04:31 PM] Mumbai Testers: Its upto you! there are some which may not even apply so you can skip them!

[3/21/2010 5:05:22 PM] Mumbai Testers: @all - purpose is to understand them fully even if some of them does not fit in the current context.

[3/21/2010 5:06:14 PM] Mumbai Testers: any more questions?

[3/21/2010 5:06:31 PM] Mumbai Testers: are you people able to download the application or are there any problem?

[3/21/2010 5:07:03 PM] Deviprasad: downloading...

[3/21/2010 5:07:14 PM] Marlena Compton: I'm going through the install process now. If it doesn't build, I'll say something.

[3/21/2010 5:07:24 PM] priyankakoya: yup downloaded and installed

[3/21/2010 5:07:41 PM] Mumbai Testers: Okay! I guess I ask too many questions. Oops. ;)

[3/21/2010 5:09:04 PM] Marlana Compton: it didn't find my C compiler. haha. this will be interesting.

[3/21/2010 5:09:39 PM] Mumbai Testers: Oops! so its not installing.
#problem

[3/21/2010 5:10:33 PM] Mumbai Testers: @Deviprasad, Priyanka - does that work for you or any problem for you too?

[3/21/2010 5:10:59 PM] priyankakoya: nope installed successfully and iam able to work with it

[3/21/2010 5:11:03 PM] Deviprasad: installed properly

[3/21/2010 5:11:31 PM] Mumbai Testers: @Marlena - so it kinda of stuck....right? or I am wrong in assuming that!

[3/21/2010 5:12:12 PM] Marlana Compton: so those who installed did the ./configure; make; make install?

[3/21/2010 5:12:57 PM] Mumbai Testers: @Marlena - I have installed successfully too.

[3/21/2010 5:14:50 PM] Marlana Compton: did you use the instructs in the doc titled "INSTALL"?

[3/21/2010 5:15:53 PM] Mumbai Testers: No I just click Klavaro-1.4.0-win.exe and it worked fine.

[3/21/2010 5:16:22 PM] Marlana Compton: ahh...I'm on a mac

[3/21/2010 5:16:33 PM] Mumbai Testers: OoopS!

[3/21/2010 5:17:50 PM] Mumbai Testers: From the supporting OS list- I do not see that it does support Mac or not?

[3/21/2010 5:18:07 PM] Mumbai Testers: I am so sorry I should have checked it before with you! :(

[3/21/2010 5:18:50 PM] Marlana Compton: it does, but don't worry. Lemme see if I can get it working. Looks like it should be a fun app.

[3/21/2010 5:19:27 PM] Mumbai Testers: Okay! no worries. :) Let me know if any problem - I have other mission too...ready with me. :)

[3/21/2010 5:19:36 PM] Mumbai Testers: Only for situations like this!

[3/21/2010 5:20:25 PM] Mumbai Testers: @Deviprasad @Priyanks - going smooth so far ...right?

[3/21/2010 5:20:32 PM] Mumbai Testers: No questions means smooth.....

[3/21/2010 5:21:00 PM] Deviprasad: exploreing the app

[3/21/2010 5:21:20 PM] Mumbai Testers: I forgot to tell you something - you will be submitting your reports at www.bugrepository.com

[3/21/2010 5:21:21 PM] priyankakoya: yup gng smooth..

[3/21/2010 5:21:44 PM] Mumbai Testers: so have the report ready in word or any other doc and upload it. For regitration it will take a minute.

[3/21/2010 5:21:54 PM] Mumbai Testers: Be aware of the traps!

[3/21/2010 5:22:07 PM] priyankakoya: ok

[3/21/2010 5:24:17 PM] Marlana Compton: @MumbaiTesters Looks like it's not building a proper line for gcc on the mac. What's your alternate assignment?

[3/21/2010 5:24:33 PM] Mumbai Testers: @Deviprasad @Priyanka - remember te mission though its good that you are exploring it.

[3/21/2010 5:24:53 PM] Mumbai Testers: @Marlena - give me a minute!

[3/21/2010 5:24:59 PM] Marlana Compton: np

[3/21/2010 5:25:42 PM] Mumbai Testers: My backup has all Win supporting mission. :(

[3/21/2010 5:26:12 PM] Marlena Compton: shall I find another app with functionality similar to Klavaro?

[3/21/2010 5:26:46 PM] Mumbai Testers: If you can find it thats goodam doing that only.

[3/21/2010 5:28:57 PM] Mumbai Testers: can you try this one <http://sourceforge.net/projects/eartoner/>

[3/21/2010 5:29:31 PM] Mumbai Testers: this is not same as that of the application I shared earlier but as we have time constraint so it wont take much time to download.

[3/21/2010 5:30:59 PM] Marlena Compton: I just got one up and running called typetrainer4mac. Another free one. Do you mind if I use that one?

[3/21/2010 5:31:23 PM] Mumbai Testers: Would you mind if you can share the URL with me?

[3/21/2010 5:31:37 PM] Mumbai Testers: But I guess it will only work on Macright?

[3/21/2010 5:31:49 PM] Marlena Compton: sure...looking for it.

[3/21/2010 5:32:17 PM] Marlena Compton: <http://mac.softpedia.com/get/Educational/TypeTrainer4Mac.shtml>

[3/21/2010 5:32:20 PM] Mumbai Testers: no worries you can share it after 6pm IST too when we will have debriefing....

[3/21/2010 5:32:29 PM] Mumbai Testers: Okay! thanks.

[3/21/2010 5:32:40 PM] Marlena Compton: ok

[3/21/2010 5:33:00 PM] Mumbai Testers: @All - as Marlana is having some problem so we will stop our testing by 6:10 pm ISTis that okay with Marlana?

[3/21/2010 5:33:17 PM] Marlana Compton: yes, that's ok

[3/21/2010 5:33:25 PM] Mumbai Testers: great!

[3/21/2010 5:36:26 PM] *** Mumbai Testers added Felipo ***

[3/21/2010 5:37:04 PM] Mumbai Testers: Hi all ...just added Felipo to our group chat. Felipo developed the app klavaro.

[3/21/2010 5:37:26 PM] Marlana Compton: Hi Felipo :)

[3/21/2010 5:37:43 PM] Felipo: Hi all.....

[3/21/2010 5:37:54 PM] Felipo: How is it going so far?

[3/21/2010 5:38:52 PM] Felipo: Sorry Marlana - Amit just told me that you are using Mac....

[3/21/2010 5:39:23 PM] Marlana Compton: yeah...I tried. Had to move on to another.

[3/21/2010 5:40:15 PM] Mumbai Testers: @ all - so where are we? any problems or you lost in the world of exploration.

[3/21/2010 5:44:27 PM] Felipo: @all - how is the application behaving so far before I move out.

[3/21/2010 5:45:10 PM] Deviprasad: app behaviour is okay but not excelent

[3/21/2010 5:46:11 PM] Deviprasad: may be we may need to few features, I feel

[3/21/2010 5:47:34 PM] Felipo: okay @Deviprasad.... any issues which stops you from working with it? You may want to discuss them during discussion so if you want me to stay by here, I will.

[3/21/2010 5:53:14 PM] Mumbai Testers: @all - we have 18 more minutes to go....I hope you all are working on the reports too. Reports will have your issues, screenshots, heuristic etc for better understanding of all.

[3/21/2010 5:53:38 PM] Deviprasad: Felipe ,there is no blockage as such,I am able to continue with my testing

[3/21/2010 5:53:55 PM] Mumbai Testers: @Marlena - you get through with that application?

[3/21/2010 5:54:29 PM] Mumbai Testers: @Deviprasad - we can discuss with him during discussion as I asked him to stay by with us! Is that okay with you?

[3/21/2010 5:55:01 PM] Deviprasad: I am okay with that

[3/21/2010 5:55:05 PM] Mumbai Testers: :)

[3/21/2010 5:56:25 PM] Deviprasad: :)

[3/21/2010 6:00:11 PM] Marlena Compton: Yes, I think I'm finished. Please remind me of what you would like in the report?

[3/21/2010 6:01:06 PM] Mumbai Testers: A report can have your issue, screenshots if applicable, and against which mnemonic you tested it. Any other that you would like to add!

[3/21/2010 6:01:28 PM] Marlena Compton: ok

[3/21/2010 6:02:13 PM] Mumbai Testers: @Marlena - seems to be pretty fast - she is done? :) Wow!

[3/21/2010 6:03:13 PM] Marlena Compton: I'm writing the report part and I'm kind of tired. It's past my bed-time ;)

[3/21/2010 6:04:45 PM] Mumbai Testers: No worries I can understand! :) Good to see you still with us though ... ;)

[3/21/2010 6:05:15 PM] Mumbai Testers: Last 6 minutes guys and then we will start with the discussion part!

[3/21/2010 6:06:30 PM] Deviprasad: @mumbai ,do I need to send the bug report to you ,or I need to log bugs in the web site which you provided

[3/21/2010 6:07:20 PM] Mumbai Testers: @all - you can log all the issues in the document and upload that log when you report an issue using our bugrepository (www.bugrepository.com)

[3/21/2010 6:08:09 PM] Mumbai Testers: From the drop down you need to select MWT11 and add your issue. Simple. :)

[3/21/2010 6:09:21 PM] Mumbai Testers: @Priyanka - are you with us?

[3/21/2010 6:09:39 PM] priyankakoya: yup im there

[3/21/2010 6:09:43 PM] Mumbai Testers: Time is almost up!

[3/21/2010 6:10:19 PM] Deviprasad: sorry to ask you again ,for each issue I have to log one bug or I can upload my word doc which includes all issues

[3/21/2010 6:11:13 PM] Mumbai Testers: @Deviprasad - log all the issues in one document, do not log them seperately.

[3/21/2010 6:11:31 PM] Mumbai Testers: Testing time is OVER!

[3/21/2010 6:11:44 PM] Mumbai Testers: Now take 2 minutes break and note down your experience, challenges, approach, any issues, and the whole exercise.

[3/21/2010 6:12:02 PM] Mumbai Testers: so we will start with Marlana at 6:13 pm IST. :)

[3/21/2010 6:13:49 PM] Mumbai Testers: @Marlana - are you ready as I know its been quite a late over there. :)

[3/21/2010 6:15:13 PM] Mumbai Testers: @Marlena - are you with us?

[3/21/2010 6:15:33 PM] Marlena Compton: yes

[3/21/2010 6:15:40 PM] Mumbai Testers: @Deviprasad @Priyanks - I do not see any report uploaded yet. Do you guys have trouble with it. Let me know!

[3/21/2010 6:15:51 PM] Deviprasad: getting an error while uploading the .pdf file into the web site

[3/21/2010 6:16:01 PM] Mumbai Testers: okay @Marlena - I thought you slept.

[3/21/2010 6:16:21 PM] Marlena Compton: I am very close. I haven't uploaded yet.

[3/21/2010 6:16:32 PM] Mumbai Testers: @Deviprasad - you are registered right?

[3/21/2010 6:16:43 PM] Deviprasad: yep

[3/21/2010 6:17:02 PM] Mumbai Testers: Okay then we will start with the discussion and I expect by the end of the discussion you all will upload them.

[3/21/2010 6:17:16 PM] Deviprasad: showing me as reporter in the web site

[3/21/2010 6:17:30 PM] Marlena Compton: ok

[3/21/2010 6:17:36 PM] Mumbai Testers: @Deviprasad - we will take that offline! I will help you out with it!

[3/21/2010 6:17:55 PM] Deviprasad: sure thx

[3/21/2010 6:18:04 PM] Mumbai Testers: @Marlena - tell us about your experience, challenges, approach, any issues, and the whole exercise.

[3/21/2010 6:18:17 PM] Marlena Compton: ok

[3/21/2010 6:18:22 PM] Mumbai Testers: I know we can not install the app you have tested. :(

[3/21/2010 6:18:48 PM] Marlena Compton: Obviously, I had problems installing. This is despite the web-site saying that the app is compatible with mac and linux.

[3/21/2010 6:19:24 PM] Marlena Compton: I downloaded another type-training app with a very restricted functionality.

[3/21/2010 6:20:08 PM] Marlena Compton: Since I was a bit flustered from the install problems, I didn't use a mnemonic for my testing this time. Just started looking through the features.

[3/21/2010 6:20:45 PM] Marlena Compton: and immediately pretended to be a cat sleeping, rolling and stomping all over the keyboard.

[3/21/2010 6:21:56 PM] Marlena Compton: There was an area for dragging an rtf file, I think this file was supposed to contain info allowing the font to be changed. I played with dragging a non-rtf file and got a warning.

[3/21/2010 6:22:32 PM] Marlena Compton: I created an empty rtf file and dragged that onto the application. It didn't use the file, but it didn't give me a warning either.

[3/21/2010 6:23:07 PM] Marlena Compton: I was messing around with changing the character set when time was called.

[3/21/2010 6:23:15 PM] Mumbai Testers: Okay. Interesting.

[3/21/2010 6:23:29 PM] Marlena Compton: Next time, I think I'll pick a mnemonic before we start ;)

[3/21/2010 6:24:02 PM] Mumbai Testers: I know you have not tried with mnemonics but how do you feel the whole exercise irrespective of pretending cat sleeping?

[3/21/2010 6:24:35 PM] Marlana Compton: how do I feel?

[3/21/2010 6:25:07 PM] Mumbai Testers: about the whole exercise - assuming that you got success in installing the app.

[3/21/2010 6:25:29 PM] Marlana Compton: I enjoyed it.

[3/21/2010 6:26:05 PM] Marlana Compton: The app ended up being fairly simple. I probably could have done a bit more digging.

[3/21/2010 6:26:14 PM] Mumbai Testers: Okay! that teach me one important lesson to be ready with all types of app as back up. Thanks for teaching me! My backup failed this time. :(

[3/21/2010 6:26:49 PM] Marlana Compton: Well, to be fair, that app *did* advertise that it could be used with a mac

[3/21/2010 6:26:54 PM] Mumbai Testers: any questions for Marlana?

[3/21/2010 6:27:04 PM] Mumbai Testers: @Deviprasad, Priyanka....

[3/21/2010 6:27:29 PM] priyankakoya: nope no questions from my side

[3/21/2010 6:27:49 PM] Deviprasad: nope

[3/21/2010 6:28:04 PM] Mumbai Testers: okay! lets move on ...who wants to go next?

[3/21/2010 6:28:05 PM] Mumbai Testers: :)

[3/21/2010 6:28:20 PM] priyankakoya: i'll take a chance

[3/21/2010 6:28:29 PM] Mumbai Testers: Pretty fast! :) Sure

[3/21/2010 6:28:49 PM] priyankakoya: from my side i was eagerly waiting for what kind of it would be..

[3/21/2010 6:29:25 PM] priyankakoya: but though first time felt good doing it.. ok let me start with my exp on app

[3/21/2010 6:29:48 PM] priyankakoya: installation and all went pretty simple to as any other s/w i was able to easily intall it

[3/21/2010 6:30:27 PM] Mumbai Testers: okay!

[3/21/2010 6:30:56 PM] Mumbai Testers: so did you use mnemonics?

[3/21/2010 6:31:13 PM] priyankakoya: but after using typing Master i felt this can be more improve in the look and feel perspective

[3/21/2010 6:31:14 PM] Mumbai Testers: do you want to highlight any? I am sure they must be there in the report.

[3/21/2010 6:31:24 PM] priyankakoya: nope did not use anything of such kind

[3/21/2010 6:31:59 PM] priyankakoya: just concentrated on the userexpectation and the purpose front

[3/21/2010 6:32:17 PM] priyankakoya: no highlights as such..

[3/21/2010 6:33:04 PM] Mumbai Testers: Okay! How do I ask you if whatever you felt should work as per your expectation but that was not a part of my requirement, how would you convince me or Felipo then?

[3/21/2010 6:34:54 PM] Mumbai Testers: @Priyanka - as that was the part of our mission right? I know you are first timer here I assume that you will understand this as we move ahead.

[3/21/2010 6:35:11 PM] priyankakoya: ok

[3/21/2010 6:35:23 PM] Mumbai Testers: Be very sure to achieve the mission....as this way we learn new things apart from what we do at our work place.

[3/21/2010 6:35:30 PM] Mumbai Testers: thanks for sharing your thoughts!

[3/21/2010 6:35:42 PM] Mumbai Testers: @Deviprasad - would you like to go?

[3/21/2010 6:35:50 PM] Mumbai Testers: its your turn.

[3/21/2010 6:35:52 PM] Deviprasad: yep

[3/21/2010 6:36:18 PM] Deviprasad: it's good experience ,initially bit confused what to do later picked up from the chat script this is the first time I am participating ,there are few hiccups may be next time onwards I will not face the same

Just started exploring the application ,started noting down the issues but unable to map with test heuristics ,may be I have to do some home work b4 joining to this ,this time I haven't done that I am sorry for this

[3/21/2010 6:37:07 PM] Mumbai Testers: No need to be sorry about it...we all here to learn!

[3/21/2010 6:37:33 PM] Deviprasad: :)

[3/21/2010 6:37:39 PM] Mumbai Testers: Questioning is an important aspect - even if you have any issues question moderator, question product that way it will certainly add value to your work.

[3/21/2010 6:38:08 PM] Deviprasad: okay

[3/21/2010 6:38:48 PM] Mumbai Testers: so there are no major highlighting points from your side....as Felipo is still with us.

[3/21/2010 6:40:14 PM] Deviprasad: concentrated more on app Usability front as many tools available like this

[3/21/2010 6:40:36 PM] Deviprasad: just wanted to know for you ro Felipo who will be the end users for this product

[3/21/2010 6:41:11 PM] Deviprasad: as it really helps me to know at what level we have to test the app

[3/21/2010 6:42:15 PM] Marlana Compton: That's one of my favorite questions to ask when testing a new app. "Who is the customer?"

[3/21/2010 6:42:40 PM] Mumbai Testers: well as you can see this is typing tutor tool so the target audience may vary for this tool. (as per Felipo)

[3/21/2010 6:43:30 PM] Marlana Compton: Well, is this one for kids? or is it for adults who want to improve their typing?

[3/21/2010 6:43:31 PM] Mumbai Testers: @Marlana - how about not having this information but still assume from the app.

[3/21/2010 6:44:24 PM] Felipo: Okay! So we need the target audience.

[3/21/2010 6:44:32 PM] Marlana Compton: If development has no idea who their customer is, how am I supposed to prioritize which functionality will be the most important?

[3/21/2010 6:45:26 PM] Mumbai Testers: good question @Marlana.

[3/21/2010 6:45:43 PM] Marlana Compton: I don't like assuming too much when I test, to the annoyance of the devs I work for.

[3/21/2010 6:45:53 PM] Deviprasad: @Felipo - it really helps us to understand the product better if we know the end user

[3/21/2010 6:47:30 PM] Mumbai Testers: Okay @all - Felipo is my trap for this exercise.

[3/21/2010 6:48:06 PM] Marlana Compton: What??!! A plot twist!!!

[3/21/2010 6:48:12 PM] Mumbai Testers: @all - from whatever I have seen, worked with this application and checked the other aspects - this is for adults. The target audience is not having kids for sure.

[3/21/2010 6:48:38 PM] Mumbai Testers: however I like this question and I am with you all on this - target audience indeed important for good testing.

[3/21/2010 6:48:57 PM] Mumbai Testers: @Marlena - just a distracter to testers

[3/21/2010 6:49:16 PM] Mumbai Testers: and I am happy to see that it was not that success though.

[3/21/2010 6:49:35 PM] Mumbai Testers: On the other front how about asking all this question when we start testing the application?

[3/21/2010 6:50:21 PM] Mumbai Testers: Isn't that good? That certainly change the way you test the app? Thats why I said ask as many question as you canand we are here to answer them and understand other stories too.

[3/21/2010 6:50:24 PM] Marlena Compton: That's something I probably should have done more of on this one.

[3/21/2010 6:51:03 PM] Mumbai Testers: @Deviprasad - does that answer your question to some extent?

[3/21/2010 6:51:27 PM] Mumbai Testers: @Priyanka - do you want to add more? Or done for the day.

[3/21/2010 6:51:40 PM] Deviprasad: yep ,probably I should have asked this b4 starting the app

[3/21/2010 6:52:04 PM] Mumbai Testers: @Marlena - that happens more often with me too....yday I was a part of session WT but I did the same mistake. :(

[3/21/2010 6:52:24 PM] Deviprasad: lesson learned for me today :)

[3/21/2010 6:52:52 PM] Mumbai Testers: @Deviprasad - thats okay as I did the same mistake yday

[3/21/2010 6:52:54 PM] Marlana Compton: For me as well.

[3/21/2010 6:53:21 PM] Mumbai Testers: No worries and some lesson for me too. :)

[3/21/2010 6:53:33 PM] Mumbai Testers: I need to work on them too. Thanks for pointing out them!

[3/21/2010 6:54:05 PM] Mumbai Testers: Feel free to share any feedback about this session or about our moderators at mumbaiteters@gmail.com = we are open for all feedback. :)

[3/21/2010 6:54:20 PM] Deviprasad: sure

[3/21/2010 6:54:35 PM] Mumbai Testers: now say to bye Felipo. :)

[3/21/2010 6:55:14 PM] Deviprasad: bye bye Felipo :)

[3/21/2010 6:55:26 PM] Mumbai Testers: thanks for joining this session - special thanks to Marlana as she took the time for joining this session. @Deviprasad, Priyanka - I will see you in coming sessions.

[3/21/2010 6:55:31 PM] Marlana Compton: bye Felipo

[3/21/2010 6:55:43 PM] Marlana Compton: thanks guys, I had fun :)

[3/21/2010 6:55:59 PM] Mumbai Testers: Felipo = Mumbaitesteres (just logged in from some other acccount. :))

[3/21/2010 6:56:16 PM] Marlana Compton: yeah...it was a good joke.

[3/21/2010 6:56:25 PM] Deviprasad: sure ,Thank Felipo ,Marlana ,priyanka and MT

[3/21/2010 6:56:46 PM] Mumbai Testers: @Marlana - it was to distract you all from the mission.

[3/21/2010 6:57:04 PM] Mumbai Testers: Thank you all. Have a good time!

[3/21/2010 6:57:12 PM] Mumbai Testers: @Marlena - have a good sleep.

[3/21/2010 6:57:17 PM] Marlena Compton: Cheers :)

[3/21/2010 6:57:48 PM] Mumbai Testers: @Marlena - so are you having prob with report uploading too?

[3/21/2010 6:57:59 PM] Mumbai Testers: I will be helping out Deviprasad with it.....

[3/21/2010 6:58:44 PM] Deviprasad: thx ,I thought you for got sunday:)

[3/21/2010 6:59:20 PM] Mumbai Testers: If the problem persists you can mail them at mumbaiteteres@gmail.com

[3/21/2010 7:00:34 PM] Deviprasad: sure ,I will try to upload after some time ,if still happens I will mail them to you

[3/21/2010 7:00:51 PM] Mumbai Testers: Okay no worres.

[3/21/2010 7:02:13 PM] Deviprasad: okay then I am signing of for today ,catch you all next week
