

Weekend Testing Session No.49

[3:58:55 PM] *** Weekend Testing added Tester, Mythri ***

[3:59:24 PM] Weekend Testing: Welcome to WeekendTesting Session No.49

[3:59:39 PM] Weekend Testing: I am Ajay Balamurugadas, your facilitator for today.

[3:59:51 PM] Weekend Testing: Welcome Tester, Mythri.

[4:00:04 PM] Mythri: hi..

[4:00:18 PM] Tester: Thanks Ajay

[4:00:32 PM | Edited 4:01:19 PM] Weekend Testing: For first timers, let me tell you in brief how a WeekendTesting session is conducted:

We will have an hour of testing session followed by an hour of discussion session.

Testing Session:

A mission would be provided and you are left on your own to work towards the mission.

You may use any tools or any techniques. You are responsible for your testing. You can ask questions in this chat or ping me in private if you do not want to disturb others.

Please feel free to ask any questions. You can pair up with any tester or wish to work solo.

In the discussion session, we will discuss on how you approached the mission, learning, mistakes and any other interesting experience.

And finally we are here to learn, share knowledge in a fail safe environment.

Lets get started.

Mission:

The product to be tested is Bleachbit. An opensource product to clean junk files to free disk space.

<http://sourceforge.net/projects/bleachbit/>

Weekend Testing Session No.49

<http://bleachbit.sourceforge.net/>

Download, install and test this application. Report any bugs you find and for every bug you find, think of a scenario where this would not be fixed.

[4:01:26 PM] Weekend Testing: Any questions?

[4:02:00 PM] Mythri: <http://sourceforge.net/projects/bleachbit/>

im not able to lauch this link

[4:02:15 PM] Weekend Testing: please try other link

[4:02:27 PM] Mythri: k

[4:04:16 PM] *** Weekend Testing added eusebiu blindu ***

[4:04:42 PM] Weekend Testing: Hi Sebi

[4:04:52 PM] eusebiu blindu: Hi All

[4:05:18 PM] Weekend Testing: Mythri, are you able to access it now?

[4:05:29 PM] Weekend Testing: Sebi, mission pasted in private

[4:05:39 PM] Mythri: yes..

[4:05:45 PM] eusebiu blindu: I saw it. Thanks

[4:05:50 PM] Weekend Testing: Cool.

[4:05:54 PM] Mythri: after that i clicked on download

[4:05:58 PM] Mythri: button..

[4:06:08 PM] Weekend Testing: Tester, any questions?

[4:06:25 PM] Mythri: somw WLC videos page is displaying now

[4:06:28 PM] Tester: not yet. Done with installation

[4:07:11 PM] Weekend Testing: ok

[4:08:30 PM] Weekend Testing: has anyone worked with similar products?

[4:09:00 PM] Tester: nopes. I have only use `rm -rf` for all such needs :)

Weekend Testing Session No.49

[4:09:18 PM] Weekend Testing: ok

[4:09:48 PM] Mythri: no..

[4:11:13 PM] Weekend Testing: Sebi, finished installation?

[4:11:19 PM] eusebiu blindu: yep

[4:11:28 PM] eusebiu blindu: just getting familiar with the app

[4:12:36 PM] Weekend Testing: ok

[4:12:57 PM] Tester: to me my tmp files are my property, I need to be care full with this. As it is my only home machine :)

[4:14:14 PM] Weekend Testing: Yes, some tests can be destructive.

[4:14:30 PM] eusebiu blindu: yeah

[4:14:44 PM] eusebiu blindu: i am not comfortable with this applications

[4:15:37 PM] Weekend Testing: Very good. How will these applications be tested. Special environment is required? :)

[4:16:32 PM] Tester: In a VM which I can throw away

[4:16:59 PM] Tester: once I have confidence in the App I will use it on my on machine

[4:17:08 PM] eusebiu blindu: its for VM indeed

[4:17:31 PM] Tester: but right now no time to create one, and I don't have one at home

[4:17:37 PM] Tester: but will play with it

[4:17:44 PM] Weekend Testing: ok. makes sense.

[4:21:34 PM] Weekend Testing: anything interesting or anyone stuck?

[4:22:23 PM] Tester: no, not really

[4:22:32 PM] Mythri: its installing..

[4:23:00 PM] Weekend Testing: ok

[4:27:46 PM] eusebiu blindu: Yeah we don't have too good setting to test this

[4:28:01 PM] Weekend Testing: Claims testing maybe

[4:28:04 PM] Weekend Testing: Usability

Weekend Testing Session No.49

[4:28:39 PM] Tester: One started a scan there, there is no way to stop it

[4:28:48 PM] Tester: or is there?

[4:29:07 PM] Weekend Testing: hmmm, investigate plz. 30 more mins

[4:29:53 PM] Weekend Testing: <http://bleachbit.sourceforge.net/documentation>

[4:29:59 PM] Weekend Testing: might help if you are stuck

[4:30:05 PM] Mythri: k

[4:32:05 PM] Mythri: ajay..

if i check the Cashe check box the Adobe Reader check box will be checked...

[4:32:43 PM] Weekend Testing: Yes, isn't there a parent-child relationship there

[4:32:51 PM] Weekend Testing: isn't it expected

[4:34:15 PM] Mythri: ok..

[4:38:01 PM] eusebiu blindu: we could use maybe some additional software that monitors what the application is doing

[4:38:52 PM] Weekend Testing: I know a File Monitoring software

[4:39:07 PM] Weekend Testing: do you mean something like FileMon

[4:39:15 PM] eusebiu blindu: yeah

[4:39:47 PM] Weekend Testing: Ok, that would help us know which files the application deletes

[4:40:31 PM] eusebiu blindu: yeah if all the actions claimed by the applications are correct

[4:41:10 PM] Weekend Testing: Mythri, Tester - Aware of such software?

[4:41:24 PM] Mythri: no ajay

[4:41:48 PM] Tester: Nopes.

[4:42:19 PM] Weekend Testing: Maybe next weekend, we should select such a product

[4:43:49 PM] Weekend Testing: 15 more mins and we would start discussion

[4:47:19 PM] Weekend Testing: Did anyone try the Shred settings and quit?

[4:47:31 PM] Weekend Testing: Do you think that resets the settings?

Weekend Testing Session No.49

[4:47:34 PM] eusebiu blindu: ProcessMon is showing a buffer overflow

[4:47:43 PM] eusebiu blindu: from the application

[4:47:56 PM] Weekend Testing: screenshot?

[4:48:07 PM] eusebiu blindu: 12:15:13.3246842 PM bleachbit.exe 3672 QueryAllInformationFile C:\Users\seby.IVO\Application Data\BleachBit\bleachbit.ini BUFFER OVERFLOW CreationTime: 12/11/2010 11:42:38 AM, LastAccessTime: 12/11/2010 12:15:13 PM, LastWriteTime: 12/11/2010 12:15:13 PM, ChangeTime: 12/11/2010 12:15:13 PM, FileAttributes: A, AllocationSize: 0, EndOfFile: 0, NumberOfLinks: 1, DeletePending: False, Directory: False, IndexNumber: 0x200000001b617, EaSize: 0, Access: Generic Write, Read Attributes, Position: 0, Mode: Synchronous IO Non-Alert, AlignmentRequirement: Word

[4:48:21 PM] Weekend Testing: :)

[4:48:24 PM] Weekend Testing: nice

[4:48:55 PM] eusebiu blindu: yeah so its something behind the main interface that crashes

[4:49:19 PM] eusebiu blindu: I used this <http://technet.microsoft.com/en-us/sysinternals/bb896645>

[4:49:28 PM] eusebiu blindu: filter by application

[4:49:36 PM] eusebiu blindu: and you can see errors

[4:49:54 PM] Weekend Testing: thanks

[4:50:06 PM] eusebiu blindu: and the error appears at simple selects

[4:50:40 PM] Tester: thanks.

[4:51:35 PM] eusebiu blindu: other errors:

[4:51:36 PM] eusebiu blindu: 12:20:56.1183088 PM bleachbit.exe 3672 QueryDirectory D:\Program Files\BleachBit\share\pixmaps NO SUCH FILE Filter: pixmaps

[4:51:51 PM] eusebiu blindu: so it had apparently some pictures

[4:51:57 PM] eusebiu blindu: that are not found

[4:52:36 PM] eusebiu blindu: this appears when I try to clear the clipboard

[4:53:27 PM] eusebiu blindu: it does not appear though if I have a picture in the clipboard

[4:54:05 PM] Weekend Testing: Sebi, we should discuss this in discussion session in detail.

[4:54:50 PM] eusebiu blindu: ok

Weekend Testing Session No.49

[4:56:10 PM] Weekend Testing: last 5 mins and we will start discussion

[4:59:23 PM] Weekend Testing: If all three of you are done, we can start with discussion session

[5:00:26 PM] Weekend Testing: ready?

[5:00:34 PM] eusebiu blindu: I am ok

[5:00:38 PM] Mythri: ya...

[5:00:41 PM] Tester: so am I

[5:01:11 PM] Weekend Testing: Cool. This was really an interesting session considering the risks of testing this app

[5:01:51 PM] Tester: which leads us to not being able to play with the applicaiton as much as we could have :(

[5:02:12 PM] Weekend Testing: testing when = gathering information, we did our best

[5:02:26 PM] Weekend Testing: considering the environment we have

[5:02:55 PM] Weekend Testing: So, shall we start with Sebi demonstrating use of Process Monitor?

[5:03:27 PM] Weekend Testing: Sebi, Tester, Mythri

[5:03:40 PM] Tester: I am on linux

[5:03:41 PM] Mythri: sure

[5:03:53 PM] Tester: :) it would be good to see

[5:03:54 PM] Tester: that

[5:04:02 PM] eusebiu blindu: Not sure how we can do this?

[5:04:09 PM] Weekend Testing: Over to you Sebi, we will try to repeat the steps

[5:04:21 PM] Weekend Testing: you could type the steps here

[5:04:26 PM] eusebiu blindu: Do you have process monitor?

[5:04:32 PM] Weekend Testing: I have

[5:04:36 PM] Tester: I certainly don't

[5:04:44 PM] Tester: :)

[5:04:49 PM] Weekend Testing: [4:49 PM] eusebiu blindu:

Weekend Testing Session No.49

<<< <http://technet.microsoft.com/en-us/sysinternals/bb896645>

[5:04:57 PM] eusebiu blindu: Yeah its for windows...

[5:05:03 PM] Weekend Testing: oops

[5:05:21 PM] Weekend Testing: I will try, record it and send you the video

[5:05:23 PM] Weekend Testing: Tester

[5:05:24 PM] Weekend Testing: .

[5:05:28 PM] Tester: cool!

[5:05:38 PM] Tester: only if you have spare time

[5:05:58 PM] Weekend Testing: Sebi, please start

[5:06:40 PM | Edited 5:07:01 PM] eusebiu blindu: you need to start preferably process monitor after bleachbit

[5:07:16 PM] eusebiu blindu: so that process monitor can see the process

[5:07:23 PM] eusebiu blindu: because I had some problems

[5:07:49 PM] eusebiu blindu: ok?

[5:07:57 PM] Weekend Testing: ok, started PM after Bleachbit

[5:08:23 PM] eusebiu blindu: Go to Process Monitor->Filter

[5:08:36 PM] eusebiu blindu: Again select filter

[5:08:56 PM] eusebiu blindu: In the drop downs

[5:08:59 PM] Weekend Testing: done, Mythri, Tester with us?

[5:09:04 PM] eusebiu blindu: instead "Arhitecture"

[5:09:05 PM] Weekend Testing: sorry Tester

[5:09:11 PM | Edited 5:09:27 PM] eusebiu blindu: select "Process Name"

[5:09:34 PM] eusebiu blindu: "is"

[5:09:35 PM] Weekend Testing: done

Weekend Testing Session No.49

[5:09:48 PM] eusebiu blindu: "bleachbit.exe"

[5:10:01 PM] eusebiu blindu: "Add"

[5:10:09 PM] eusebiu blindu: "Apply"

[5:10:29 PM] eusebiu blindu: now everything is ready

[5:10:49 PM] Weekend Testing: so we close by clicking on OK

[5:10:51 PM] eusebiu blindu: ProcMonitor will show every action

[5:11:02 PM] eusebiu blindu: yes

[5:12:01 PM] Weekend Testing: ok, great, any specific steps which display the buffer overflow?

[5:12:32 PM] eusebiu blindu: Go to BleachBit

[5:12:37 PM] eusebiu blindu: and select stuff there

[5:12:48 PM] eusebiu blindu: and then go back to proc monitor

[5:14:41 PM] Weekend Testing: Do you see under Detail column

[5:15:25 PM] Weekend Testing: Got it

[5:15:34 PM] eusebiu blindu: "Result"

[5:15:35 PM] Weekend Testing: Under Result

[5:15:37 PM] Weekend Testing: ya

[5:15:43 PM] eusebiu blindu: every fields shows some details

[5:16:05 PM] Weekend Testing: amazing - I will use it in my day to day testing

[5:16:08 PM] eusebiu blindu: "Detail" I think its mostly useful for developers

[5:16:18 PM] eusebiu blindu: yeah its good

[5:16:43 PM] eusebiu blindu: I am working on linux usually so I try to find similar tools for windows

[5:16:58 PM] eusebiu blindu: and you can try the clipboard stuff

[5:17:02 PM] eusebiu blindu: any actions

[5:17:08 PM] Weekend Testing: clear clipboard?

[5:17:13 PM] Weekend Testing: copy to clipboard

Weekend Testing Session No.49

[5:17:13 PM] eusebiu blindu: yes

[5:17:15 PM] Weekend Testing: ok

[5:17:28 PM] eusebiu blindu: now its exploratory

[5:17:35 PM] eusebiu blindu: but you can see better detail

[5:17:47 PM] eusebiu blindu: because the applications didn't communicate much

[5:18:39 PM] Weekend Testing: very nice and someone rightly said - Discussion session is the best part of weekendtesting

[5:18:43 PM] Weekend Testing: :)

[5:19:19 PM] Weekend Testing: Thanks Sebi.

[5:19:29 PM] eusebiu blindu: you can see that BleachBit is using some folders to store some data

[5:20:04 PM] Weekend Testing: pixmaps

[5:20:13 PM] Weekend Testing: icons

[5:20:15 PM] Weekend Testing: App Data

[5:20:31 PM] eusebiu blindu: yep

[5:20:48 PM] eusebiu blindu: and it can give ideas maybe

[5:20:56 PM] Weekend Testing: yes.

[5:21:21 PM] eusebiu blindu: of course combined with a safe environment like VM could be much better

[5:22:04 PM] Weekend Testing: of course, lets ask how Mythri and Tester feel about this experience. This is the first time they are participating in a weekendtesting session

[5:22:21 PM] eusebiu blindu: In this case a walkthrough over each section and tests for each component will increase the value

[5:22:52 PM] Weekend Testing: Quick tour will reveal us lots of details

[5:23:02 PM] Weekend Testing: Thanks Sebi for this tool

[5:23:08 PM] eusebiu blindu: np

[5:23:19 PM] Weekend Testing: Tester, Mythri how did you feel

[5:23:24 PM] Tester: Yeah it does sounds pretty neat

Weekend Testing Session No.49

- [5:23:31 PM] Weekend Testing: Is this your first weekendtesting session?
- [5:23:33 PM] Mythri: i need to learn so many things
- [5:23:42 PM] Tester: any similat tool or command you know for linux?
- [5:24:07 PM] eusebiu blindu: in linux not really
- [5:24:25 PM] eusebiu blindu: but there you can used other similar but split ones
- [5:24:31 PM] Weekend Testing: Don't worry Tester, we will find one if it exists. We have a strong network of testing friends
- [5:24:34 PM] eusebiu blindu: you can monitor the process
- [5:24:50 PM] Tester: We sure will.
- [5:24:57 PM] Weekend Testing: Mythri you want to start
- [5:25:04 PM] Weekend Testing: how you felt, what you learnt
- [5:25:21 PM] Mythri: came to know about BleachBit
- [5:25:21 PM] Tester: Yeah I do things like this in bits and pices
- [5:25:40 PM] Weekend Testing: ok, so this is your first time with apps like these
- [5:25:48 PM] Mythri: yes..
- [5:26:10 PM] Weekend Testing: how did you feel when you saw the app? you sent me a screenshot of the app
- [5:26:24 PM] Mythri: i was thinking what to test
- [5:26:40 PM] Weekend Testing: ok, how do you test usually in office?
- [5:27:01 PM] Mythri: we do test web applications
- [5:27:14 PM] Mythri: functional n regression
- [5:27:54 PM] Mythri: n today i learnt many new terminologies
- [5:28:37 PM] Weekend Testing: nice. how did you approach today?
- [5:28:54 PM] Weekend Testing: What helped you?
- [5:29:36 PM] Mythri: was able to learn new things which i was unaware
- [5:30:09 PM] Mythri: will google all the terms which i was not able to understand in our session

Weekend Testing Session No.49

[5:30:25 PM] Weekend Testing: ok

[5:30:27 PM] Weekend Testing: www.satisfice.com/tools/satisfice-tsm-4p.pdf

[5:30:48 PM] Weekend Testing: should help you build a testing model to test any product

[5:30:57 PM] Mythri: ok..

[5:31:00 PM] Mythri: thanks to all

[5:31:09 PM] Weekend Testing: Any bugs you found?

[5:32:07 PM] Mythri: to be frank with u.. i was not able to test the functionality only

[5:32:44 PM] Tester: I am sure none of was expecting to do taht

[5:33:04 PM] Weekend Testing: ok, how is this session different from your previous testing sessions?

[5:33:17 PM] Mythri: this is my first sesssion in WT

[5:33:30 PM] Mythri: it was little hard to follow u guys..

[5:33:56 PM] Weekend Testing: hmmm, feel free to ask questions Mythri.

[5:34:21 PM] Weekend Testing: others might not know that you have questions unless you ask

[5:34:29 PM] Weekend Testing: agree?

[5:34:50 PM] Mythri: yes..

[5:34:51 PM] Weekend Testing: Will you participate in future sessions?

[5:35:00 PM] Weekend Testing: any learning

[5:35:04 PM] Mythri: sure..

[5:35:19 PM] Mythri: but will have to prepare so much

[5:35:34 PM] Weekend Testing: ok. Thanks Mythri for participating

[5:35:43 PM] Weekend Testing: lets ask Tester how he felt

[5:35:53 PM] Mythri: thanks all

[5:36:37 PM] Tester: Like Mythri this is my first WT session

[5:37:10 PM] Tester: it was fun. But could have been more amusing if I knew the application earlier,

[5:37:32 PM] Tester: by that I mean that kind of application would we be playing with

Weekend Testing Session No.49

[5:38:15 PM] Tester: As I told I had to be very careful to use this kind of application on my home machine

[5:38:24 PM] Weekend Testing: We want to create a pressure situation ;) we want to give the session details only at start of session

[5:38:37 PM] Tester: Thats fine.

[5:38:53 PM] Tester: But the point is

[5:38:59 PM] Tester: I know what I wan't to do

[5:39:15 PM] Tester: I just can't do it coz of the environment

[5:40:09 PM] Tester: now that sucks..

[5:40:33 PM] Weekend Testing: Agreed that we were stuck becaus eof env, what next in those cases?

[5:40:50 PM] Tester: nothing . Play safe :)

[5:41:24 PM] Tester: Application have some real good real world use cases

[5:41:59 PM] Tester: I mean people really wan't to delete temp files

[5:42:20 PM] Weekend Testing: ok, what did you learn?

[5:42:27 PM] Weekend Testing: a different experience?

[5:44:35 PM] Tester: Yeah

[5:45:02 PM] Tester: both Weekend Testing and Ajay have made some headlines in Testing world lately

[5:45:20 PM] Weekend Testing: oops

[5:45:30 PM] Tester: I should have tried this much earlier ..

[5:45:41 PM] Weekend Testing: Better late than never Tester :)

[5:45:53 PM] Tester: but its never too late

[5:45:56 PM] Tester: Yeah man!

[5:45:56 PM] Weekend Testing: Would you recommend this to your colleagues?

[5:46:01 PM] Mythri: i'll

[5:46:25 PM] Weekend Testing: tonight there is one more session in 4 hrs or so.

[5:46:27 PM] Mythri: already i have informed my colleague

Weekend Testing Session No.49

[5:46:39 PM] Tester: Oh great!

[5:46:39 PM] Weekend Testing: nice. Thanks Tester.

[5:46:47 PM] Weekend Testing: Sebi, anything you will like to share?

[5:47:03 PM] eusebiu blindu: Well that tool I think was useful

[5:47:16 PM] eusebiu blindu: But it was the defocusing that I think played a role

[5:47:34 PM] eusebiu blindu: because the application didn't give too many ideas in the begining

[5:47:46 PM] eusebiu blindu: no input fields to try perlclip :)

[5:47:52 PM] eusebiu blindu: and no logs

[5:47:57 PM] eusebiu blindu: a little

[5:47:58 PM] eusebiu blindu: only

[5:48:11 PM] eusebiu blindu: but was very hard to question the application

[5:48:25 PM] eusebiu blindu: so that tool is good for this executables

[5:48:31 PM] Weekend Testing: cool, a true tester doesn't get stuck :)

[5:48:59 PM] eusebiu blindu: if you cannot check the application, check what happened to the environment instead

[5:49:06 PM] Tester: try to run it from dos prompt

[5:49:23 PM] Weekend Testing: Tester, Mythri, the link I provided www.satisfice.com/tools/satisfice-tsm-4p.pdf is by James Bach

[5:49:40 PM] Weekend Testing: and on his website there are some useful tools like PerlClip and AllPairs

[5:49:42 PM] Tester: I did from teminal and it write some good logs

[5:49:55 PM] Mythri: ok..

[5:49:59 PM] Weekend Testing: Nice Tester.

[5:50:04 PM] Weekend Testing: [5:48 PM] eusebiu blindu:

<<< if you cannot check the application, check what happened to the environment insteadGood One

[5:50:21 PM] eusebiu blindu: yeah in linux you can see some logs there

Weekend Testing Session No.49

[5:50:35 PM] eusebiu blindu: for windows executables

[5:50:49 PM] Tester: I only come accros some usability stuff

[5:51:16 PM] Weekend Testing: Useful too.

[5:51:22 PM] Weekend Testing: Any questions

[5:51:33 PM] Weekend Testing: any feedback for this session?

[5:51:43 PM] Mythri: yes i have ajay

[5:51:56 PM] Weekend Testing: please share Mythri

[5:52:19 PM] Mythri: if u can provide some info about the topics which we discuss in the next seesion.. so we can do some home work n follow

[5:52:39 PM] Mythri: may be through email

[5:52:40 PM] Weekend Testing: I already told that, did anyone notice

[5:53:12 PM] Mythri: today?

[5:54:17 PM] Weekend Testing: yes

[5:54:20 PM] Weekend Testing: in the session

[5:54:26 PM | Edited 5:54:34 PM] Weekend Testing: File Monitoring product

[5:54:33 PM] Mythri: filemon

[5:54:37 PM] Weekend Testing: yes

[5:54:41 PM] Mythri: ok..

[5:54:58 PM] Tester: OHh that

[5:54:58 PM] eusebiu blindu: yeah but process monitor is new version of file mon

[5:55:25 PM] eusebiu blindu: although maybe has extra stuff

[5:55:47 PM] Weekend Testing: Let me search for some file monitoring app or we might just test Process Monitor. Better to start from simple app

[5:55:50 PM] Weekend Testing: don't know

[5:55:55 PM] Weekend Testing: lets see

[5:56:04 PM] Weekend Testing: ok, anything else?

Weekend Testing Session No.49

[5:56:08 PM] Mythri: ok..

[5:56:18 PM] Mythri: next week do have session?

[5:56:38 PM] Weekend Testing: yes

[5:56:51 PM] Mythri: 8-)

[5:56:56 PM] Weekend Testing: Thanks Mythri, Tester and Sebi for participating

[5:57:04 PM] Tester: I had a feeling that It wasn't as interactie as I was expecting

[5:57:05 PM] Mythri: thanks ajay

[5:57:21 PM] Weekend Testing: I learnt a lot from this session and will use PM for testing on monday

[5:57:28 PM] eusebiu blindu: Thanks all for the session

[5:57:38 PM] Weekend Testing: Tester, less participants

[5:57:39 PM] eusebiu blindu: Yeah interactivity gives some extra ideas

[5:57:48 PM] Tester: True!

[5:57:57 PM] Mythri: but i had a good exp

[5:58:04 PM] Mythri: thanks to all

[5:58:06 PM] Weekend Testing: we have had sessions with 25+ testers and we had to go with 2 facilitators :)

[5:58:25 PM] Weekend Testing: you can go through past session reports on website

[5:58:30 PM] Tester: Awsome!!

[5:58:38 PM] Weekend Testing: and this chat transcript will also be posted on website

[5:58:45 PM] Weekend Testing: Thanks once again.

[5:58:54 PM] Weekend Testing: Happy weekend.

[5:59:11 PM] Tester: Thanks alot

[5:59:22 PM] Tester: Happy weekend every one

[5:59:50 PM] eusebiu blindu: Thanks all. Bye!
