<<< Here we go

Mission for today

Important Rule to keep in mind: Do not use fake email address when requesting updates

Your customer is WT55 who is planning to buy a license for the product you are about to test. The vendor claims that it can be effectively used for brainstorming, story boarding, IM and more.

WT55 – Corkboard Testing Chat Transcript

You have been to ask to test the product and make recommendations whether it is a good tool for collaboration.

WT55 is not worried about Bug reporting but it will be a bonus. Any bugs found will be passed to the vendor to fix at no extra cost.

Your responsibility is to write a report for the benefit of WT55 with your recommendations. The report should include 'for' and 'against' reasons of buying the license.

WT55 is not interested in 'nice to have features' but would welcome any suggestions.

Don't forget to report browser and OS incompatibility.

Therefore, your report your should contain all or some of the following sections

For

Against

Nice to have features

Bugs

You can start hacking whenever you are ready. Use the link below to access the product

<http://corkboard.me>

Notes:

1. The URL to share between the pairs or threes can be found by clicking bubble in the bottom left corner of the screen.

2. Read product specification before diving in by clicking '?' icon.

[4:12:53 PM] Weekend Testing: Feel free to ask your questions :)

[4:12:55 PM] Martin Jansson: how do you perceive the test group?

[4:13:41 PM] Mohinder Khosla: We are testing the app in pairs or in threes and sharing the results before presenting it to the customer

[4:13:56 PM] Martin Jansson: So, you are our test lead then Mohinder?

[4:14:47 PM] Mohinder Khosla: I am your customer and I want to buy the license for the product but I want to be sure we can benefit from the prod

[4:15:29 PM] Martin Jansson: how much does it cost?

[4:16:07 PM] Mohinder Khosla: It is pretty inexpensive but we want some recommendations from you whether it is fit for purpose.

[4:16:29 PM] rajashekara.hotur: I m not getting in this site except a blank page

[4:16:35 PM] Martin Jansson: (my wife just told I need to take over with the kids... damn!)

[4:16:49 PM] Weekend Testing: The purpose is for Weekend testing?

[4:17:06 PM] Mohinder Khosla: @Martin kids can have fun from this app

[4:17:22 PM] Weekend Testing: Is it useful for collaboration testing or where more than two/three testers are involved?

[4:17:30 PM] Martin Jansson: BRB, see if I can continue from the kitchen

[4:18:06 PM] Weekend Testing: @All: Any questions on the mission/

[4:18:29 PM] Weekend Testing: We have 50 mins left for the session

[4:18:45 PM] rajashekara.hotur: anyone is here?

[4:19:26 PM] vamshi: "You have been to ask to test the product and make recommendation" what to test?

[4:19:33 PM] Balu: What are the features from the application you are looking for? You mentioned Brainstorming, IM and story boarding. Anything else?

WT55 – Corkboard Testing Chat Transcript

[4:19:58 PM] Weekend Testing: Wow, where there were questions :) good questions...

[4:20:59 PM] Mohinder Khosla: @vamshi There is plenty to test. See if you can type on the same note when sharing. Trying moving the note when your parter is typing. use im how it helps ypou to communicate

[4:22:03 PM] Mohinder Khosla: Give me the url that you are sharing so I can see what are you communivcating with each others

[4:22:03 PM] Narasimha Reddy: for IM we need to share the link right ?

[4:22:50 PM] Narasimha Reddy: My url <http://corkboard.me/sU4K4YNexk>

[4:26:51 PM] Mohinder Khosla: @Martin You can work solo by opening the same corkboard in multiple browsers and test

[4:27:12 PM] Martin Jansson: doing that already

WT55 – Corkboard Testing Chat Transcript

[4:27:26 PM] Weekend Testing: :)

[4:28:48 PM] Martin Jansson: Got two kids running around me, so I got the usual test lab distraction.

[4:28:56 PM] Martin Jansson: Testing under pressure.

[4:32:10 PM] Weekend Testing: All looking good so far?

[4:32:19 PM] Weekend Testing: Any questions, feel free to shoot them here.

[4:32:25 PM] Balu: Sure

[4:32:32 PM] Martin Jansson: How do you define good? =)

[4:32:36 PM] Weekend Testing: If you want to ask them in private also, its ok!

[4:32:46 PM] Weekend Testing: up to you Martin :)

[4:33:21 PM] Martin Jansson: want me to share bugs directly?

[4:33:48 PM] Mohinder Khosla: @Martin The app must work as claimed and bug free. Vendors are happy to fix the bugs free but we need to report them

[4:34:10 PM] Martin Jansson: ok, writing them in my report then

[4:35:53 PM | Edited by Weekend Testing, 4:42:26 PM] Mohinder Khosla: Write on one note and drag it from other console if you have one to see when the text drops in the middle

[4:42:03 PM | Edited by Weekend Testing, 4:42:21 PM] Mohinder Khosla: It's quite

[4:42:18 PM] Martin Jansson: Its a tool that is good

[4:42:41 PM] Martin Jansson: shallow testing does not give much

[4:42:55 PM] Weekend Testing: Last 25 mins! :)

[4:43:14 PM] Mohinder Khosla: @Martin So you like it. I need your recommendation. Have you broken it

[4:43:39 PM] Martin Jansson: I am not done

[4:55:17 PM] Martin Jansson: can I use a valid email to test the Get Updates, or isnt it safe?

[4:55:21 PM] Mohinder Khosla: This is a playful app and everyone seems to be enjoying it

[4:55:54 PM] Mohinder Khosla: @Martin You must use valid email so that you will receive updates when they happen

[4:56:31 PM] Mohinder Khosla: Everything else is fair play

[4:57:13 PM] Martin Jansson: if we do not use a valid email?

WT55 – Corkboard Testing Chat Transcript

[4:58:28 PM] Mohinder Khosla: The vendor told me not to use fake emails because we are running the tests on their production system. They would like to know any bugs we find

[4:59:04 PM] Martin Jansson: so the mail system might need further investigation then

[4:59:08 PM] Mohinder Khosla: There is no harm in giving our real emails

[5:03:36 PM] Mohinder Khosla: How are we doing with time?

[5:03:46 PM] Weekend Testing: 7 more mins

[5:04:01 PM] Mohinder Khosla: I have told them to write a report

[5:05:52 PM] *** Martin Jansson sent corkboard_report_martin_jansson.txt ***

[5:06:26 PM] Mohinder Khosla: @Martin Thanks. Receiving the report

[5:07:01 PM] Martin Jansson: If I missed something I blame being in the kitchen with kids running around me. =)

[5:07:20 PM] Mohinder Khosla: You had more than everyone else

[5:07:40 PM] Weekend Testing: Martin's report:

[5:07:48 PM] Weekend Testing: Last 3 mins

[5:11:29 PM] Weekend Testing: Are we done :)

[5:11:37 PM] Mohinder Khosla: @Martin Your file is safe with me

[5:11:39 PM] Weekend Testing: Let us stop testing

[5:14:04 PM] Mohinder Khosla: Too much enjoyment is not good guys. Back here please

[5:14:22 PM] Balu: Stopped!

[5:16:09 PM] Weekend Testing: @Akanksha, @Narasimha, @srizenqa

[5:16:23 PM] Martin Jansson: We can not turn off the testing switch.

[5:16:31 PM] Martin Jansson: Our minds are ever racing.

[5:16:49 PM] srizenqa: stopped testing

[5:16:53 PM] Narasimha Reddy: stopped testing

[5:16:58 PM] Mohinder Khosla: How was your experience with the app and would you use it to brainstorming session?

WT55 – Corkboard Testing Chat Transcript

[5:17:57 PM] Martin Jansson: I focused on covering most of the main features, I found a few bugs but they were not that serious. I collaborated with myself only, which has its draw backs.

[5:18:12 PM] Martin Jansson: I need to see how it works with several people working at the same time with it.

[5:18:32 PM] Martin Jansson: adding, moving, deleting etc. Perhaps the other testers focused on that.

[5:18:44 PM] Martin Jansson: Still, I really liked what I saw and will recommend others to use it.

[5:19:07 PM] Mohinder Khosla: How did others do? Did you pair or worked in 3's. Did you cover all browsers?

[5:19:25 PM] Balu: Covered - FF3, Chrome and IE8

[5:19:51 PM] *** Akanksha talwar sent WT55-akanksha.doc ***

[5:19:52 PM] Narasimha Reddy: i covered chrome and firefox, huge text copying in firefox crashed

[5:19:57 PM] Mohinder Khosla: @Martin would it be used for weekend testing?

[5:20:05 PM] Martin Jansson: Win7, Chrome and IE7

[5:20:06 PM] Balu: me, vamshi and akanksha did some testing colloborated

[5:20:33 PM] Mohinder Khosla: @Alanska try sendin the file to dropbox

[5:20:50 PM] srizenqa: I've covered adding, editing and deleting notes, adding pictures to the board and Instance messasing on IE 8 and Firefox. I've found few minor defects.. I recommend to use this product

[5:20:54 PM] Weekend Testing: I am the one dropping it to dropbox

[5:20:56 PM] Martin Jansson: @Mohinder, I think it would be really neat to try it out. Still, we are missing the mind map in its center, no?

[5:21:13 PM] Weekend Testing: team, send the reports to me in private (if not sent by now)

[5:21:27 PM] Mohinder Khosla: @balu how did you find the experience easy to work tool or clumsy

[5:21:31 PM] Weekend Testing: <http://dl.dropbox.com/u/8987774/WT55-akanksha.doc>

[5:21:40 PM] Weekend Testing: is Akanksha's report

[5:21:43 PM] Akanksha talwar: @Ajay- Thanks

[5:21:55 PM] Balu: Mohinder - Bit clumsy Particluarly with the feature which adds a note on click

[5:22:34 PM] Balu: When a team works on the board, they tend to click on the page to drag or do something else and it pos up a new note pad - ofcourse you can close it

WT55 – Corkboard Testing Chat Transcript

[5:23:01 PM] Mohinder Khosla: @Balu does it do the job for which it is design for? Any features you feel adding

[5:23:17 PM] Balu: @Ajay, emailed my report to weekendtesting@gmail.com

[5:24:14 PM] Balu: @Mohinder - Yes. It would be good to have identification for the people who adds text to notes - anything which makes text differentiated between users, as typewith.me used color coding

[5:24:59 PM] Balu: one other feature missing is to export the discussion board. I din't find any. Of course i can copy paste but Do we have anything that can export discussion?

[5:25:09 PM] Martin Jansson: It would be a nice feature to be able to group notes and add headings

[5:26:01 PM] *** Narasimha Reddy sent WT55_Narasimha.txt ***

[5:26:21 PM] Mohinder Khosla: @balu why do you need export function? You are barainstoring ideas and sharing the note pad. You can print the storybaord later.

[5:26:24 PM] Martin Jansson: the chat history should perhaps be saved for a whole board, so that new members can see the full history

[5:26:36 PM] Weekend Testing: http://dl.dropbox.com/u/8987774/Balu_WT55_Corkboard.gif

[5:26:53 PM] Weekend Testing: and <http://dl.dropbox.com/u/8987774/WT55-Report-Balaji.doc> are Balu's reports

[5:27:06 PM] Weekend Testing: http://dl.dropbox.com/u/8987774/WT55_Narasimha.txt is by Narasimha

[5:27:39 PM] Mohinder Khosla: I think the licensed version would have more functionality. The verion you tested is free to use.

[5:27:47 PM] Balu: @Mohinder, There can always be useful information in brainstorming which needs to be referred later. that is why I export the discussion. Don't you think so?

[5:28:03 PM] Balu: Sometimes, i may have to summarize the discussion.

[5:28:15 PM] Balu: and send it across

[5:28:36 PM] Mohinder Khosla: @balu the corkboard is saved and you can provide the link to other team members to look at whnever

[5:29:06 PM] Balu: @Mohinder, then that's great feature to have which i've missed to identify

[5:30:04 PM] Mohinder Khosla: I am not sure how long the archive is kept but you can go back and look at what you discussed. IM discussion is not kept and if you refresh the page it is gone

WT55 – Corkboard Testing Chat Transcript

[5:31:05 PM] Balu: The key is to store the discussion which can be referred to continue further discussions on the same agenda. It can be a local copy or online. For local copy you need to export

[5:31:39 PM] Mohinder Khosla: Could you summarise your recommendation for others benefit?

[5:31:59 PM] Balu: One great feature i see here is adding images. You can add an image like a mind map which acts like as the central item to be focussed in the discussion

[5:33:08 PM] Mohinder Khosla: Adding picture is good which means you can take a screen shot and share it with others and share your results in real time

[5:33:20 PM] Balu: You can find them in my report -

[5:35:30 PM] Balu: @Mohinder, Some problems with my skype - can you see the link i typed?

[5:35:31 PM] Mohinder Khosla: Did you try all the features? Did you find notes that do nt appear on the screen but scrolled over

[5:35:54 PM] Mohinder Khosla: Yes I can see the links

[5:35:54 PM] Balu: I think i didn't cover all the features in the time i have.

[5:36:15 PM] Balu: I didn't test that feature

[5:36:22 PM] Narasimha Reddy: I too did not cover all the features

[5:36:24 PM] Martin Jansson: my bugs can be found in the report

[5:39:56 PM] Mohinder Khosla: What is your overall verdict of the product? Is it something we can use exchanging ideas between team member? Sharing results with others

[5:40:57 PM] Martin Jansson: I think we should try it out next session

[5:43:17 PM] Mohinder Khosla: Give everyone their own note and let them write their results and we can all share it real time while others are typing.Share screen shots the lot. Just have to work in the

WT55 – Corkboard Testing Chat Transcript

space otherwise the notes will go off screen. All notes and images can be arranged so everyone can see it

[5:43:54 PM] Martin Jansson: it will be a limitation if we are many testers

[5:44:00 PM] Balu: My recommendaton - I'm against to it with the main drawbacks - user identification and number of notes that can be added. I see typewith.me good over corkboard for brainstorming.

[5:44:13 PM] Weekend Testing: http://dl.dropbox.com/u/8987774/Corkboard_WT55_Sri.doc is Sri's report

[5:45:40 PM] Mohinder Khosla: Did any one of you try typing on the same note and one typing on a note and other moving it away?

[5:46:06 PM] Mohinder Khosla: I means together

[5:46:22 PM] Balu: @Mohinder, we did it. Typing on the same board and moving

[5:47:03 PM] Balu: That also brings in confusion - When someone tends to type and other moves.

[5:47:10 PM] Mohinder Khosla: If you were typing and your team mate moved it did you see your text disappear or still recorde

[5:47:28 PM] Martin Jansson: i guess that is a general draw back with collaboration

[5:47:45 PM] Martin Jansson: imagine if you did this in RL, writing on a note and someone took it and moved it away

[5:47:54 PM] Martin Jansson: bug or feature?

[5:47:59 PM] Balu: Akanksha has mentioned her text was vanishing. Thoughts akanksha?

[5:48:16 PM] Weekend Testing: comparison with typewith.me ?

[5:49:26 PM] Mohinder Khosla: Your note is synchronised in real time if you typing and someone moved it away you should see it being recorded. Therefore, it is feature to ensure you are communication and not working in tangent

[5:49:30 PM] Narasimha Reddy: not differentiated the users who is typing compare with typewith.me

[5:50:34 PM] Narasimha Reddy: for IM user status not available

[5:50:53 PM] Mohinder Khosla: Narasinmha Use IM to make sure you on the same page. Write your name at the top of the note to identify yourself

[5:51:49 PM] Narasimha Reddy: @Mohinder i mean in IM user is avaiable or away

[5:52:43 PM] Akanksha talwar: This IM feature makes corkboard buyable

WT55 – Corkboard Testing Chat Transcript

[5:53:00 PM] Weekend Testing: [5:52 PM] Akanksha talwar:

<<< This IM feature makes corkboard buyable

[5:53:24 PM] Mohinder Khosla: For me it is a good tool for storyboarding because I carry a BA hat sometimes. I do not need users sitting next to me. I can interrogate them about the require and ask them all sorts of question without leaving my office

[5:54:35 PM] Mohinder Khosla: @Alanska? Why say IM makes it buyable? Did you notice if you refresh your page all the conversation get refreshed?

[5:55:14 PM] Akanksha talwar: @Mohinder- yes , I have written as a defect, if it get fixed then?

[5:55:53 PM] Mohinder Khosla: Ok guys we have 5 minutes to go before we wrap up. Would you recommend this product and would you actually use it in your work place if it is free?

[5:56:33 PM] Akanksha talwar: I will recommend this ((y))

[5:57:02 PM] Martin Jansson: i am going to use it if it is free, i wont buy it

[5:57:08 PM] Balu: @Mohinder - Yes if its free

[5:57:24 PM] srizenqa: If it is free, i'll use it.

[5:57:28 PM] Narasimha Reddy: I will recomend this for free

[5:58:21 PM] Weekend Testing: currently, isn't it free?

[5:58:24 PM] Mohinder Khosla: New eatures are being worked on but the standard edition is free to use. it still has great features that we can use

[5:58:30 PM] Weekend Testing: oh ok

[5:59:47 PM] Mohinder Khosla: Anything else you want to ask and were afraid to ask. here is your last opportunity

[5:59:56 PM] Weekend Testing: :)

[6:00:06 PM] Weekend Testing: how was your experience Mohinder?

[6:00:16 PM] Weekend Testing: go ahead Akanksha!

[6:00:34 PM] Mohinder Khosla: It was great and you guys were no bother for me.

[6:00:59 PM] Martin Jansson: Thanks for the testing run

[6:01:02 PM] Mohinder Khosla: I enjoyed the experiance being at the receiving end
