We will have an hour of testing session followed by an hour of discussion session.

Testing Session:

A mission would be provided and you are left on your own to work towards the mission.

You may use any tools or any techniques. You are responsible for your testing. You can ask questions in this chat or ping me in private if you do not want to disturb others.

Please feel free to ask any questions. You can pair up with any tester or wish to work solo.

In the discussion session, we will discuss on how you approached the mission, learning, mistakes and any other interesting experience.

And finally we are here to learn, share knowledge in a fail safe environment.

Lets get started.

Today's session is about Google Music <http://www.google.co.in/music> .

Pair up with another tester and provide feedback on the usability of this site.

[5:09:41 PM] Weekend Testing: let us have only one moving pencil here

[5:10:24 PM] Mansi Mishra: Its a nice site to listen the music as the buffering is fast and got all indian music under one head but we can only play one song at a time no playlist can be prepd,no english song are there which made me bit upset..

[5:11:16 PM] Nimesh Prajapati: I was looking for early 1960s, and the link said 1960's but acutal searching was done on "196"

[5:12:29 PM] Weekend Testing: @Mansi: Do you think you met the mission?

[5:12:31 PM] Narasimha Reddy: search results are not consistent on list and grid

[5:16:01 PM] Mansi Mishra: Akanksha

[5:16:06 PM] riyaj-shaikh: Confusion ????? :)

[5:16:16 PM] Weekend Testing: Why @Riyaj?

[5:16:30 PM] riyaj-shaikh: We need to test for usability right ?

[5:16:39 PM] Weekend Testing: @Akanksha & Mansi, why did we test for Performance?

[5:17:00 PM] Akanksha talwar: We have include performance as on the criteria in the Usability

[5:17:14 PM] Weekend Testing: Thanks.

[5:18:05 PM] *** Narasimha Reddy sent WT58.pdf ***

[5:18:19 PM] Akanksha talwar: If it is not able to buffer the song properly then it comes under performance issue for the usability criteria

[5:18:30 PM] Weekend Testing: Whoa, ok'

[5:19:01 PM] Akanksha talwar: I m not sure i m correct, please correct me if i m wrong

[5:19:23 PM] Weekend Testing: We can discuss this over twitter later.

[5:19:56 PM] vamshi: @akanksha @weekend the speed of internet may also is the cause ?

[5:19:58 PM] Weekend Testing: I see list of test ideas under different headers. Where are the test results?

[5:20:04 PM] Mansi Mishra: mee too

[5:20:29 PM] Weekend Testing: Player should be embedded in same window.

- Should be able to create playlist.

- Should be able to download the song from the window itself. No need to go to the site and download

[5:20:46 PM] Weekend Testing: look like ideas. What is happening on site is not mentioned right?

[5:21:29 PM] Akanksha talwar: I have mentioned it in the Features Available

[5:26:54 PM] Mansi Mishra: ok

[5:27:14 PM] Weekend Testing: or else we move to the next pair - Narasimha & Vamshi

[5:27:21 PM] Weekend Testing: Thanks Akanksha & Mansi :)

[5:27:46 PM] Mansi Mishra: no question as of now..

[5:28:50 PM] Narasimha Reddy: Here we see some issue# AR rahman songs should not display older than 70's

total no of results displayed varying from list and grid

typed movie name shivaji and clicked on tamil not displayed the result as based on actor shivaji

does not search for music director

grid view missing source link

there is no advance search option

did not match any documents for no results it should be music/movie/artist instead of documents

[5:29:26 PM] Weekend Testing: Thanks for saving time. How was the pairing experience?

[5:30:12 PM] Narasimha Reddy: it was good and learning from others

[5:30:33 PM | Edited 5:30:40 PM] Weekend Testing: As a pair, What did you do well?

<<< I didn't see any advance search option here@Vamshi: Ok

[5:36:08 PM] Weekend Testing: Did anyone else see the advanced search feature?

[5:36:54 PM] riyaj-shaikh: Yes , there is no advance search option

[5:38:46 PM] riyaj-shaikh: Our issues finding : 1) sorting feature which is there in Google music, it is done in descending order only

2) Look I found that there is no way to play all songs from a movie

It requires a user to select individual song and then play it even we can't make playlist.

3) After opening Song window , it does not shoes how much minutes song is

4) Sharing to twitter sometimes give a 404 error

5) We cant share single song over Face book , twitter and other media.

[5:38:49 PM] Weekend Testing: I have one question - I will ask after Vamshi types.

[5:38:51 PM] vamshi: gave input(shivaji) which resembles both avtor name and movie name. which returned actor shivaji movies instead of shivaji movie songs

[5:39:02 PM] vamshi: *actor*

[5:39:08 PM] Weekend Testing: ok

[5:39:13 PM] Weekend Testing: What is expected?

[5:39:58 PM] vamshi: shivaji movie songs shld be expected but returned actor shivaji movie names

[5:40:06 PM] Weekend Testing: ok

[5:40:13 PM] Weekend Testing: why?

[5:40:27 PM] riyaj-shaikh: Have you type "shivaji movie "

[5:40:32 PM] Weekend Testing: @All: What do you think?

[5:40:38 PM] riyaj-shaikh: @vamshi

[5:40:48 PM] vamshi: @riyaj : no

[5:40:55 PM] Narasimha Reddy: sivaji displaying

[5:41:49 PM] Weekend Testing: ok, we move on to the next pair due to time constraints

[5:41:56 PM] keen_tester: For # does not search for music director - The google music returns list of albums, Ex searching for music director like Uttam Singh returns results like Pinjar

[5:42:30 PM] Weekend Testing: ok, good point - worth discussing later...

[5:42:32 PM] Akanksha talwar: Movie name is Sivaji Not Shivaji

[5:42:43 PM] Weekend Testing: :) point.

[5:42:53 PM] Akanksha talwar: thats why it is not searching

[5:42:54 PM] keen_tester: I think it is sivaji - the boss

[5:43:07 PM] Weekend Testing: domain knowledge ;)

[5:43:15 PM] Akanksha talwar: ha ha

[5:43:19 PM] riyaj-shaikh: it is Shivaji -Thats all :)

[5:43:45 PM] riyaj-shaikh: Dont click on my links

[5:44:39 PM] Weekend Testing: ok, nice observation folks.

[5:45:06 PM] Weekend Testing: @Narasimha: If given another chance, will you change your strategy?

[5:45:09 PM] riyaj-shaikh: I found that we cant tell by watching song window -the length of song

[5:45:37 PM] Akanksha talwar: @Vamsi - Its correct, but when i search "Shivaji" - It gave me Actor Shivaji. But when i search "sivaji" - it gave me movie Sivaji- The boss. i think its correct functionality

[5:46:02 PM] keen_tester: @ Akanksha - I agree

[5:46:21 PM] Weekend Testing: Cool folks, let us move on

[5:46:28 PM] Weekend Testing: we have only 14 mins left

[5:49:17 PM] Weekend Testing: nice!

[5:50:29 PM] riyaj-shaikh: In Pairing its much better to test with

[5:50:40 PM] riyaj-shaikh: We have better ideas

[5:50:54 PM] keen_tester: I could understand the value of collaboration !

[5:51:02 PM] riyaj-shaikh: Or we can extend our partners ideas
