

Session Chat Transcript – WT68

[3:53:04 PM] Weekend Testing: Hi Balu

[3:57:05 PM] Weekend Testing: you there?

[3:57:31 PM] Balu: Yes

[3:57:38 PM] Balu: just went out

[3:57:42 PM] Weekend Testing: shall I add members?

[3:57:44 PM] Balu: sure

[3:57:50 PM] Weekend Testing: Thanks,

[3:58:01 PM] *** Weekend Testing added vmvictorvm ***

[3:58:08 PM] *** Weekend Testing added madhusudhan ***

[3:58:38 PM] Weekend Testing: Hi All, Welcome to Weekend Testing

[3:58:52 PM] Weekend Testing: I am Ajay Balamurugadas, your facilitator for today.

[3:59:16 PM] Balu: I'm Balaji, tester, Hyd, Skype: balajiponnada

[3:59:43 PM] madhusudhan: I am Madhusudhan from Bangalore

[4:00:20 PM] Weekend Testing: Mission for WT68:

We have the anatomy of a tweet with us at <http://www.inquisitr.com/70372/anatomy-of-a-tweet/>

List all your test ideas as to how you will test www.twitter.com

At the end of one hour, a report of your test ideas is needed.

[4:01:44 PM] *** Weekend Testing added Megha Katte ***

[4:01:50 PM] *** Weekend Testing added Srikanth Batchali ***

[4:02:09 PM] Weekend Testing: Welcome Balu, Madhusudan

[4:02:16 PM] Weekend Testing: Hi Megha, Srikanth

[4:02:21 PM] Weekend Testing: [4:00 PM] Weekend Testing:

<<< Mission for WT68:

Session Chat Transcript – WT68

We have the anatomy of a tweet with us at <http://www.inquisitr.com/70372/anatomy-of-a-tweet/>

List all your test ideas as to how you will test www.twitter.com

At the end of one hour, a report of your test ideas is needed.

[4:03:41 PM] Weekend Testing: Was anyone aware of the image - anatomy of a tweet?

[4:03:51 PM] Balu: no

[4:03:52 PM] madhusudhan: no

[4:04:06 PM] Megha Katte: no

[4:05:04 PM] Weekend Testing: ok, so how does it look? lot of info to test ?

[4:06:10 PM] Balu: yes, but, what is this image all about? I see lot of different things covered in the image

[4:06:30 PM] Balu: eg: authors location ans tweet length

[4:06:34 PM] Balu: and*

[4:06:39 PM] *** Weekend Testing added anuradha ***

[4:06:42 PM] Balu: They are two different things on Twitter

[4:06:50 PM] Balu: This image groups all of them into one.

[4:06:56 PM] Balu: What exactly this image is all about?

[4:07:10 PM] *** Weekend Testing added Chirag Acharya ***

[4:07:21 PM] Weekend Testing: Hi Anuradha, Chirag, welcome.

[4:07:34 PM] anuradha: Hi

[4:07:39 PM] Chirag Acharya: Hi

[4:07:52 PM] Weekend Testing: I have pasted the mission in private to both of you

[4:07:57 PM] anuradha: ok

[4:08:17 PM] Weekend Testing: Balu, if we consider the components - tweet's unique Id

[4:08:23 PM] Weekend Testing: text of the tweet

Session Chat Transcript – WT68

[4:08:43 PM] Weekend Testing: you can say that the different components of a tweet are mentioned in the image

[4:09:41 PM] Weekend Testing: Did that answer the question?

[4:09:55 PM] Balu: no, i didn't get you completely

[4:10:20 PM] Weekend Testing: has anyone understood what the anatomy of a tweet image describes?

[4:10:48 PM] vmvictorvm: I'm Victor from Canada

[4:11:01 PM] Megha Katte: it's describing some scripting of the developers

[4:11:01 PM] anuradha: Hi I am sorry , I have got an emergency call . Will join next week

[4:11:01 PM] Weekend Testing: Welcome Victor.

[4:11:18 PM] Weekend Testing: Suppose one tweets

[4:11:28 PM] Weekend Testing: what parameters is considered

[4:11:38 PM] Weekend Testing: who tweets - the id, from where its tweeted

[4:11:45 PM] Weekend Testing: how many characters, what text

[4:11:55 PM] Weekend Testing: any image, any link,

[4:12:08 PM] Balu: will that also include authors location?

[4:12:28 PM] Balu: if so, it might be an invisible attribute

[4:12:32 PM] Balu: isn't it?

[4:12:38 PM] Weekend Testing: Yes, you have option to highlight your location when you tweet

[4:12:49 PM] madhusudhan: also how many followers

[4:12:54 PM] Weekend Testing: yes

[4:12:59 PM] Balu: ok

[4:13:11 PM] Weekend Testing: So, how will you test? What will be your test ideas?

[4:13:37 PM] Weekend Testing: Sample test idea could be : Tweet with no text, only links, more than 140 characters

[4:14:13 PM] Balu: How does number of users the person following dependant on what he is tweeting?

[4:14:32 PM] Weekend Testing: The tweet must be displayed to so many followers!

Session Chat Transcript – WT68

[4:14:40 PM] Balu: no,

[4:15:04 PM] Balu: i was asking how will that effect the accounts the user is following

[4:15:12 PM] Balu: its not about the followers of the user

[4:15:15 PM] Megha Katte: yes it shuld be displayed to so many followers

[4:15:39 PM] Weekend Testing: If you consider the bigger model, - the Twitter website - They have to take care of everything

[4:15:49 PM] Weekend Testing: What is tweeted and to whom it should be displayed

[4:15:57 PM] Weekend Testing: so, there the followers matter.

[4:16:38 PM] Balu: a tweet is not supposed to be displayed to who the user is following. A tweet is supposed to display for the followers of the user. I was inquiring about the former

[4:16:48 PM] Weekend Testing: Any other questions? Anuradha, Chirag, Victor, Srikanth

[4:16:52 PM] madhusudhan: if user is protected tweet is visinle only to friends

[4:17:06 PM] Weekend Testing: See, you guys know better than me :)

[4:17:06 PM] madhusudhan: *visible

[4:17:27 PM] Balu: i'm still unclear. ok let me leave that and collect test ideas

[4:17:44 PM] Weekend Testing: 17 mins has passed... test ideas are in progress?

[4:17:56 PM] vmvictorvm: so the visibility of a tweet can be limited to specific followers/friends?

[4:18:09 PM] Weekend Testing: yes

[4:18:36 PM] Weekend Testing: if the anatomy of a tweet is confusing, you are free to ignore it and write your test ideas based on your experience

[4:18:41 PM] *** Weekend Testing added Manikantan ***

[4:19:11 PM] Weekend Testing: Hi Manikantan

[4:19:21 PM] Weekend Testing: I have pasted the mission in private

[4:20:11 PM] Manikantan: ok

[4:21:08 PM] Weekend Testing: If you have any questions, feel free to ping me in private if not here

[4:21:27 PM] Weekend Testing: I will not know if you are stuck unless you let me know

[4:24:18 PM] *** Weekend Testing added Allmas Mullah ***

Session Chat Transcript – WT68

[4:24:33 PM] Weekend Testing: Hi Allmas, welcome

[4:24:44 PM] Allmas Mullah: Hi All

[4:24:53 PM] Megha Katte: hi

[4:27:55 PM] Weekend Testing: Who has started listing the test ideas?

[4:28:04 PM] Balu: me

[4:30:01 PM] Allmas Mullah: do the test ideas need to be aligned with the article's content?

[4:30:16 PM] Weekend Testing: not necessary, the image is to guide you

[4:31:13 PM] Allmas Mullah: ok ... r we focussing on any particular category of testing like functionality, usability etc. ?

[4:31:37 PM] Allmas Mullah: or is this a random generation of ideas for the twitter website as a whole

[4:31:44 PM] Weekend Testing: No one asked me. You could pick up any of the quality criteria

[4:31:58 PM] Balu: I've picked up the function

[4:32:09 PM] Balu: but its hard to cover entire functionality in the time we have

[4:32:31 PM] Balu: can we prioritize?

[4:32:43 PM] Megha Katte: hw much time?

[4:32:50 PM] Balu: 28 mins to go

[4:33:18 PM] Weekend Testing: yes, you do that everyday in office :) do it here too.

[4:34:02 PM] Balu: ok, i'm taking up the functionality and prioritizing on my own to create test ideas

[4:35:01 PM] Allmas Mullah: why was that particular article selected?

[4:35:23 PM] *** Weekend Testing added Ranjit Shringarpure ***

[4:35:36 PM] Weekend Testing: [4:33 PM] Weekend Testing:

<<< lots of test ideas can be generated using that image

[4:35:42 PM] *** Weekend Testing added tonybruceuk ***

[4:36:41 PM] Weekend Testing: When I first saw that image, I was surprised to see so many parameters considered for a single tweet

Session Chat Transcript – WT68

[4:37:36 PM] Manikantan: I never knew these many parameters are considered for my single tweet :)

[4:37:59 PM] Allmas Mullah: true ...

[4:38:13 PM] Weekend Testing: 22 mins left

[4:40:56 PM] tonybruceuk: Good morning everybody (or whatever time it is where you are)

[4:41:15 PM] Weekend Testing: Hey Tony :) welcome to Weekend Testing

[4:43:55 PM] Allmas Mullah: wow, thts an impressive list of parameters for a single tweet, its covering almost every info ... though it makes me wonder if all this is really necessary

[4:44:13 PM] Weekend Testing: Some are constant

[4:44:16 PM] Weekend Testing: and some variable

[4:44:33 PM] Allmas Mullah: sure but what about impact on performance

[4:45:22 PM] Allmas Mullah: im not familiar with JSON so cant make a concrete statements here ... would be interesting to dig deep though

[4:45:53 PM] Weekend Testing: ok

[4:46:03 PM] Ranjit Shringarpure: Morning, afternoon etc to all, first timer on wt, and a bit fiddly trying thru a mob phone away from a laptop, pc,

[4:46:22 PM] Allmas Mullah: welcome Ranjit

[4:46:43 PM] Ranjit Shringarpure: Thats a minfield of info for a tweet,

[4:47:49 PM] tonybruceuk: Does seem over complicated

[4:48:12 PM] Ranjit Shringarpure: I'd be spending some time thinking on my own then validating how my thought process maps to ppl here...

[4:48:33 PM] Weekend Testing: ok

[4:49:24 PM] *** Weekend Testing added dapo ***

[4:49:39 PM] Ranjit Shringarpure: s poxy mobile phone

[4:50:09 PM] Weekend Testing: Hi Dapo,

[4:50:15 PM] Weekend Testing: he will be an observer today

[4:50:24 PM] Weekend Testing: as we have just ten mins left

[4:50:29 PM] Weekend Testing: for testing session to end

Session Chat Transcript – WT68

[4:50:51 PM] Ranjit Shringarpure: That went wrong... Wanted to know where can i see this metadata/source i'm guessing via page a i cant see it via this poxy phone

[4:54:51 PM] Weekend Testing: last 6 mins

[4:54:57 PM] Weekend Testing: I am done.

[4:54:58 PM] Weekend Testing: <http://dl.dropbox.com/u/8987774/Twitter.docx>

[4:58:49 PM] Balu: Mine here - http://dl.dropbox.com/u/20061674/Anatomy_of_a_tweet_Balu.png

[4:59:47 PM] Weekend Testing: very nice :)

[5:01:36 PM] vmvictorvm: done:

http://dl.dropbox.com/u/20422001/Victor_Test_ideas_Twitters.doc

[5:01:52 PM] Weekend Testing: Ok, take few mins 5 mins to gather your thoughts about this session

[5:02:18 PM] Weekend Testing: lets meet at say 5.10 (in 9 mins) to hear everyone's experiences

[5:09:39 PM] Weekend Testing: lets be back

[5:10:30 PM] Allmas Mullah: here are my 2 cents (wish I had joined on time, this has been an interesting session)

[5:10:35 PM] Allmas Mullah: If we were to test the internals of a tweet as shown in the picture then according to me, the best way to test the parameters is through programs as this will be unit testing at the API level.

Each parameter can be validated for correctness of data.

Each tweet contains information such as number of followers, following, favorited by etc. What if the count of followers increases while the tweet is being published, does that data get synced in realtime or does the JSON file contain static data? Would like to test this.

[5:10:50 PM] Weekend Testing: ok

[5:10:59 PM] Weekend Testing: so have you listed any test ideas now?

[5:11:20 PM] Allmas Mullah: well just the above thoughts

[5:11:27 PM] Weekend Testing: ok

[5:11:35 PM] Allmas Mullah: the data sync test

[5:12:05 PM] Weekend Testing: how many of you have never tweeted?

[5:12:16 PM] madhusudhan: me

Session Chat Transcript – WT68

[5:12:19 PM] Manikantan: Me

[5:13:07 PM] Chirag Acharya: I have had an account for more then a year, but have recently started tweeting

[5:13:12 PM] Weekend Testing: ok

[5:13:40 PM] Weekend Testing: do you think you can think of different test ideas if you wear the hats of programmer, user, tester

[5:13:59 PM] Balu: yes

[5:14:16 PM] Chirag Acharya: yep

[5:14:32 PM] Weekend Testing: isn't the application same and the tweets being common, what can be so different?

[5:14:32 PM] Chirag Acharya: every individual will think differently

[5:14:56 PM] Balu: Its all about the visible and invisible things a tweet carry with it.

[5:15:09 PM] Balu: if you are a user, you are only concerned with visible attributes

[5:15:23 PM] Balu: if you are a tester may be you can test at API level

[5:15:28 PM] Balu: with all the info you have.

[5:15:45 PM] Balu: if you are a programmer, you can get into teh code and do a function wise unit test

[5:15:53 PM] Weekend Testing: ok

[5:16:09 PM] Weekend Testing: Allmas, did the image help you or distract you?

[5:16:15 PM] tonybruceuk: User might be concerned about functionality as well

[5:16:34 PM] vmvictorvm: The picture has a lot of information and I wasn't able to cover everything. Instead, I focus on the main functionalities. I rarely use Twitter myself (I do have an account though) and I only know the most basics functionalities such as Tweeting, Following, being followed. Not too sure how re-tweet work, so I didn't include that in my Test ideas.

[5:16:56 PM] Balu: @tony, agreed. i just mentioned the basic differences. There are other things as well:)

[5:17:08 PM] Allmas Mullah: helped me

[5:17:17 PM] Weekend Testing: [5:16 PM] tonybruceuk:

Session Chat Transcript – WT68

<<< User might be concerned about functionality as wellYes, a tester can be a user too :)

[5:17:18 PM] Megha Katte: My Teste ideas -

Test Ideas : -

1. Tested for 140 characters

2. Tested whether it is displaying correct no of tweets we hv pressed. (in all tabs – Home, Profile, Who to follow)

3. Tested whether is it displaying correct no of followers we hv followed (in all tabs – Home, Profile, Who to follow)

4. Tested whether is it displaying correct no of favourites we hv pressed. (in all tabs – Home, Profile, Who to follow)

5. While

6. Tested whether can user can unfollow after pressing follow.

7. Tested whether when user sign out from the application and again sign in is all data is correct as per expected.

[5:17:34 PM] Allmas Mullah: its better to have an objective, in this case this was a case of API level testing for me

[5:18:39 PM] Weekend Testing: ok Allmas. After a long time, we see you at WT. how was the experience?

[5:18:43 PM] Balu: I agree with Allmas, The mission was different and the picture only gives part of the information to achive the mission - thats the api level testing. There are lots of things that can be tested on twitter apart from the content in the image.

[5:19:06 PM] Allmas Mullah: with the amount of time one has for testing, its better to prioritise and be focussed, moreover others mentioned doing functional testing so I shifted to internals

[5:19:19 PM] Allmas Mullah: oh it feels wonderful to be back!

[5:19:50 PM] Balu: Did some one go into help of twitter ?

[5:19:52 PM] Weekend Testing: :)

Session Chat Transcript – WT68

- [5:19:54 PM] Manikantan: I'm a first timer & really feel good to view your ideas
- [5:20:10 PM] Allmas Mullah: and I see the use of mindmaps nice!
- [5:20:15 PM] Weekend Testing: Thanks Allmas. Good point balu
- [5:20:43 PM] vmvictorvm: which program did you guys use for mind maps?
- [5:20:58 PM] Allmas Mullah: Balu, can u elaborate (help of twitter)
- [5:21:14 PM] Balu: @victor, I used Mindmeister - online mindmappingtool. i also use xmind
- [5:21:21 PM] Chirag Acharya: he means the FAQs
- [5:21:27 PM] Megha Katte: yes i wnt to knw more abt it
- [5:21:32 PM] Balu: @Allmas - Did you get through Help file of twitter to gather more info on twitter
- [5:21:34 PM] Weekend Testing: mindmeister
- [5:22:01 PM] Balu: Help files are usually the knowledge base for any application
- [5:22:06 PM] Allmas Mullah: no i didnt ... but i what i meant was wht was ur objective in using the help
- [5:22:14 PM] Allmas Mullah: for this mission
- [5:22:22 PM] vmvictorvm: @balu, ajay
- Great, thanks
- [5:22:55 PM] Megha Katte: any body has seen sount of tweets whn u r on Home page and whn u r on My profile page
- [5:23:14 PM] Allmas Mullah: balu, was it bcoz u were doing functional testing was ur scope beyond the image?
- [5:23:21 PM] Megha Katte: count of tweet was diff in both of d position
- [5:24:23 PM] Balu: @allmas, Our objective was to generate test ideas on twitter. help file gives you info on how twitter works and other functionality of twitter. Obviously it is the source of test ideas. And you are right, for functional testing, i need to know what functions does twitter perform. So went through help file
- [5:24:41 PM] Allmas Mullah: megha, yes, on home page and profile page too
- [5:24:58 PM] Megha Katte: yeah
- [5:25:07 PM] Weekend Testing: who's next - Megha?

Session Chat Transcript – WT68

[5:25:10 PM] Balu: and our objective was not to test per the anatomy image, its just a guideline/information base for us to generate ideas.

[5:25:13 PM] Manikantan: home page - your followers tweets are shown

[5:25:23 PM] Manikantan: profile page - your tweets are displayed

[5:25:23 PM] Allmas Mullah: one last ques for balu ... may I WT?

[5:25:52 PM] Balu: @allmas - yes you can.

[5:26:03 PM] tonybruceuk: So what was the actual mission? The statement just reads 'test twitter.com` so we could have been looking at the wrong thing, maybe we were supposed to look at website?

[5:26:15 PM] Balu: @ajay, megha had already posted her ideas My Teste ideas -

Test Ideas : -

1. Tested for 140 characters

2. Tested whether it is displaying correct no of tweets we hv pressed. (in all tabs – Home, Profile, Who to follow)

3. Tested whether is it displaying correct no of followers we hv followed (in all tabs – Home, Profile, Who to follow)

4. Tested whether is it displaying correct no of favourites we hv pressed. (in all tabs – Home, Profile, Who to follow)

5. While

6. Tested whether can user can unfollow after pressing follow.

7. Tested whether when user sign out from the application and again sign in is all data is correct as per expected.

[5:26:35 PM] Megha Katte: @ Manikantan -

[5:26:49 PM] Weekend Testing: [5:26 PM] tonybruceuk:

Session Chat Transcript – WT68

<<< So what was the actual mission? The statement just reads 'test twitter.com` so we could have been looking at the wrong thing, maybe we were supposed to look at website?Yes Tony, there were very few questions to dissect the mission

[5:27:23 PM] Megha Katte: then as per ur defn - on my home page thr shuld be 0 count

[5:27:36 PM] tonybruceuk: Apologies, I was late and missed the initial discussions

[5:27:38 PM] Allmas Mullah: @balu, im trying to understand ur thought process here did u first generate ideas accn to the image and then move to the Help?

[5:27:40 PM] Megha Katte: but it wasn't

[5:28:03 PM] Allmas Mullah: @megha, what is the count then?

[5:29:34 PM] Balu: @allmas - I went through the image and listed what i can test at black box tetsing level, and found that the mission cannot be accomplished only suing the image, generated few test ideas per my knowledge, then went to help file to acquire more information on twitter.

[5:29:53 PM] Megha Katte: count was smthng diff which was not my followers tweet and not my own tweets

[5:30:53 PM] Allmas Mullah: @megha, it shud be a count of ur tweets, if the count is incorrect then it could be a bug, have u not tweeted ever?

[5:31:08 PM] Megha Katte: yeah it is bug

[5:32:15 PM] Allmas Mullah: then maybe u cud take a screenshot (with a timestamp) and take another ss after tweeting once ... can u do that now? it will be nice for us to know the result

[5:32:31 PM] Megha Katte: ok

[5:32:56 PM] Manikantan: @Megha: Hope this link with help - <https://support.twitter.com/groups/31-twitter-basics/topics/109-tweets-messages/articles/119138-types-of-tweets-and-where-they-appear>

[5:33:00 PM] Weekend Testing: Interesting isn't it - finding bugs during the discussion

[5:33:11 PM] tonybruceuk: Also maybe a slight delay in updating

[5:33:47 PM] Chirag Acharya: I have observed that

[5:33:52 PM] Weekend Testing: Help files, support documents

[5:33:57 PM] Weekend Testing: rich source of ideas!

[5:34:10 PM] Weekend Testing: we have 30 mins left, lets hear what others have to say

[5:34:19 PM] Balu: ok

Session Chat Transcript – WT68

[5:34:34 PM] Allmas Mullah: gr8 ... i love the discussion segment the most!

[5:34:56 PM] Chirag Acharya: the delay in update mostly occurs on mobile devices due to network i guess

[5:35:04 PM] Weekend Testing: could be

[5:35:18 PM] Weekend Testing: so many devices to be supported

[5:35:27 PM] Weekend Testing: one can even sms to tweet!

[5:35:48 PM] *** Megha Katte sent Home Page.bmp ***

[5:35:55 PM] *** Megha Katte sent Profile.bmp ***

[5:36:27 PM] Weekend Testing: A tip : if you save as jpeg, the size of the file is less compared to bmp

[5:37:03 PM] Megha Katte: yeah i knw

[5:37:17 PM] Weekend Testing: ok, Megha 1 question to you

[5:37:24 PM] Megha Katte: shuld i snd seperately it to u thn?

[5:37:28 PM] Weekend Testing: then we move on to next tester

[5:37:29 PM] Megha Katte: yes

[5:37:32 PM] Megha Katte: ajay

[5:37:49 PM] Weekend Testing: if given a chance to repeat this exercise, what would you do differently?

[5:38:54 PM] Megha Katte: ll go for hlp 1st

[5:39:09 PM] tonybruceuk: I would arrive earlier :)

[5:39:33 PM] Weekend Testing: :)

[5:39:41 PM] Weekend Testing: ok, Thanks Megha.

[5:39:45 PM] Weekend Testing: who is next?

[5:40:09 PM] vmvictorvm: @Megha same here. I'll look into the help section first.

[5:40:40 PM] Weekend Testing: Shall I call randomly or any volunteers?

[5:40:44 PM] Weekend Testing: 20 mins left

[5:41:01 PM] tonybruceuk: I would clarify what we are investigating, focus on a area, and start throwing down ideas and then filter the ideas down.

Session Chat Transcript – WT68

[5:42:00 PM] Weekend Testing: [5:41 PM] tonybruceuk:

<<< I would clarify what we are investigating very important

[5:42:10 PM] tonybruceuk: Well, I'm being rude and just typing at random, apologies

[5:42:54 PM] Weekend Testing: Chirag, Srikanth, Ranjit - first timers, your thoughts?

[5:43:17 PM] Allmas Mullah: @tony ... i think what u said is very imp, as its so easy to get distracted if one doesnt focus

[5:43:30 PM] tonybruceuk: I'd be interested in seeing if the messages could be interrupted and manipulated, for example changing user ids.

[5:44:16 PM] Weekend Testing: profile picture changing - Ask QualityFrog who does it so often :)

[5:45:00 PM] Balu: haha

[5:45:30 PM] Weekend Testing: ok, anyone wants to share their experiences? what they felt of this session, what were their expectations?

[5:45:42 PM] Weekend Testing: we have had quite a few test ideas...

[5:46:20 PM] Chirag Acharya: I enjoyed the session

[5:46:28 PM] Manikantan: Next time, instead of being a spectator, i'd rather come up with few idea's

[5:46:37 PM] Weekend Testing: first time right? what were your expectations?

[5:46:47 PM] Manikantan: Thanks all for sharing your idea's

[5:46:48 PM] tonybruceuk: @Allmas especially when there are so many things you could investigate, you may find yourself hoping around too much

[5:47:05 PM] Chirag Acharya: same here to be honest the anatomy confused me and i have just started using twitter

[5:47:28 PM] Allmas Mullah: @Tony, yes, I was that in the early days of WT :)

[5:47:34 PM] Chirag Acharya: so I wasnt aware of how the application would work and what it is meant to do

[5:48:07 PM] tonybruceuk: Have we all shared our Twitter ids?

[5:48:23 PM] Balu: I tweet @balajiponnada

[5:48:52 PM] Weekend Testing: @weekendtesting @ajay184f

Session Chat Transcript – WT68

[5:48:56 PM] vmvictorvm: @vmvictorvm

[5:49:23 PM] tonybruceuk: @tonybruce77

[5:49:33 PM] Weekend Testing: any feedback to me? was the mission too vague? too tough?

[5:50:19 PM] Allmas Mullah: i tweet infrequently @allmas :)

[5:50:42 PM] Balu: @Ajay - Mission was too broad

[5:50:53 PM] Megha Katte: smewht vague

[5:51:06 PM] Balu: may be we can fine tune it and narrow it

[5:51:29 PM] Weekend Testing: how different from what you get at office?

[5:52:34 PM] Balu: @Ajay - time is the difference :) We do get vague missions but we have enough time to understand the app and fine tune it or break into submissions.

[5:52:45 PM] tonybruceuk: Mission was broad and so perhaps we should have asked more questions and defined and clarified

[5:53:15 PM] Allmas Mullah: @Ajay, I think as we have new ppl every week, in mid-session we cud drop hints such as 'asking more ques' etc. ...

[5:53:22 PM] Weekend Testing: There was a session when Shrini Kulkarni refused to fall into the trap to test

[5:53:32 PM] Weekend Testing: and spent the entire session redefining the mission

[5:53:54 PM] Allmas Mullah: right ... but that was Shrini :) ... we need time to get there

[5:54:00 PM] tonybruceuk: Also, did we will look at just the one diagram? I did and I now realise I should have double check, for all I know that diagram could be wrong

[5:54:12 PM] Allmas Mullah: its a fact that testers are hesitant to ask questions

[5:54:34 PM] vmvictorvm: ok gtg guys. see you all next time :)

[5:54:40 PM] Allmas Mullah: @Tony wow, wrong, how?

[5:55:02 PM] Weekend Testing: the point by Tony is amazing. :)

[5:55:17 PM] Megha Katte: [5:54 PM] Allmas Mullah:

<<< its a fact that testers are hesitant to ask questionsI agree wid this

Session Chat Transcript – WT68

[5:55:39 PM] Weekend Testing: I would love to add the word some or most somewhere in the statement

[5:55:55 PM] Weekend Testing: I am also a tester and don't hesitate to ask questions.

[5:56:08 PM] Balu: I dont hesitate tooo

[5:56:13 PM] Megha Katte: but not same with everyone ajay

[5:56:15 PM] Allmas Mullah: @Ajay ... correction accepted!

[5:56:19 PM] Megha Katte: for new comers

[5:56:41 PM] Weekend Testing: Maybe questioning, refining the mission would have helped.

[5:56:52 PM] Megha Katte: yeah obviously

[5:56:53 PM] Weekend Testing: i wanted to throw lot of data and see how testers would react

[5:57:06 PM] tonybruceuk: It was 1 diagram given to us by the same person who gave us a very vague mission, I didn't check it, it could be wrong, out of date etc

[5:57:23 PM] Megha Katte: yeah i m always ready to accept these lot of ideas

[5:58:00 PM] Balu: does any one know about the architecture of twitter? How it is different from Facebook?

[5:58:07 PM] Balu: Social graph Vs interest graph?

[5:58:27 PM] Balu: All related to domain of networking :)

[5:58:42 PM] Weekend Testing: and continuously evolving one.

[5:59:03 PM] Megha Katte: oh

[5:59:22 PM] Allmas Mullah: @Tony, so what you are saying is that we shudve not assumed the diagram to be correct in the first place as this wouldve given us more test ideas

[5:59:29 PM] Allmas Mullah: right?

[6:00:05 PM] tonybruceuk: I don't believe it's fact that all testers are hesitant to ask questions, i believe some maybe and there can be numerous reasons for that but i do believe they need to asks questions, regardless of why they maybe hesitant

[6:00:30 PM] Weekend Testing: Well, Keep asking, keep tweeting!

[6:00:48 PM] Weekend Testing: As we hit 6 PM IST, its time to end the session. :)

[6:01:27 PM] Balu: Thanks all. Thanks Ajay for the session :)! Have a nice weekend.

Session Chat Transcript – WT68

[6:02:49 PM] Megha Katte: Thanks!!!! :)

[6:02:53 PM] tonybruceuk: @Allmas I`m just saying I didn`t think to double check it, if the diagram was wrong our tests maybe wrong

[6:03:30 PM] tonybruceuk: Thanks Ajay, thanks everybody

[6:05:34 PM] Allmas Mullah: @Tony right and I think its a valid argument ... would like to know how you could verify the validity of the diagram

[6:05:51 PM] Weekend Testing: Thank you everybody for attending and making #WT68 a success. 32 more to hit the century!

[6:07:03 PM] Allmas Mullah: @All, thanks for the wonderful session, hope to meet u in next session

[6:07:50 PM] tonybruceuk: @Allmas question Ajay, search out other docs and diagrams and compare and get agreement on what is valid

[6:07:55 PM] Manikantan: @all - bye .. have a nice weekend :)

[6:08:10 PM] madhusudhan: bye every one

[6:11:17 PM] Allmas Mullah: @Tony, thanks
