[5:23:45 PM] Weekend Testing: please take five mins to list down notes under three sections:

Mistakes in this session:

Learning from this session:

What did you do well in this session:

[5:26:43 PM] Weekend Testing: we shall discuss about them once ready.

[5:28:39 PM] Raghu S: i am ready, should i share in private

[5:28:43 PM] Raghu S: first

[5:29:41 PM] Akanksha talwar: M also ready

[5:29:56 PM] Weekend Testing: no, lets wait for a min.

[5:30:05 PM] Akanksha talwar: yes

[5:30:41 PM] Lavanya: me too

[5:30:59 PM] Weekend Testing: cool, please paste. I am sure Jasminka will be ready too

[5:31:13 PM] Jasminka Puskar: yes

[5:32:18 PM] Raghu S: Mistakes in this session:

Had issues with Skype login and usage.

Got stuck with Adobe flash installation.

Did not try other options to install.

## WT 81 - PowToon

---

Learning from this session:

You should be familiar with the Chat client you are using for session well in advance

For eg: Skype here.

Need to learn more about multitasking.

What did you do well in this session:

Tried to test other areas even when the Adobe installation didnt work.

Tried use of a testnote.

[5:33:48 PM] Weekend Testing: Those who have it ready, please paste

[5:33:54 PM] Akanksha talwar: Mistakes in this session:

Not able to find much defects

Was not able to check many functionality of the site

Learning from this session:

Get to know good site to create the animated presentation

Its important to know all the functionality first, before jumping to try it out.

What did you do well in this session:

Created the presentation very well, as m found of these sort of websites.

[5:33:55 PM] Lavanya: Mistakes: Could have focussed on playing with more features on the presentation/movie modes.

## WT 81 - PowToon

---

Learning: I think with more practice, I can present ideas more better.

Did well: I had good interactive discussion and pooling of feedbacks with Jasminka

[5:33:58 PM] Jasminka Puskar: Mistakes in this session:

I was focusing on reading the site and watching help videos to understand first. While that is not a mistake in itself I felt the pressure to have an animation at the end that I was just trying to patch something together instead of looking for issues, other than those that came to be accidentally. Not that the end result mattered more, it's just that I wanted to have something done and be ready for feedback.

Learning from this session:

That it is difficult to focus on real bugs if there is an expectation of result. Something to display.

What did you do well in this session:

I have created an animation for the first time.

[5:35:57 PM] Weekend Testing: Feeling happy? I am feeling happy reading all your reports! Raghu used Skype for the first time, Jasminka created animation for first time, Lavanya is happy with feedback, Akanksha is happy on knowing about the site!

[5:36:30 PM] Akanksha talwar: yes very true

[5:36:41 PM] Jasminka Puskar: yes actually

[5:37:09 PM] Raghu S: did anyone read the How to section

[5:37:22 PM] Raghu S: It says 5 easy steps to create a presentoon

[5:37:31 PM | Edited 5:39:48 PM] Weekend Testing: a. someone could have negotiated the mission with me

[5:37:32 PM] Raghu S: i found the steps complicated

[5:38:50 PM] Weekend Testing: b. someone could have raised the concerns here before the session completed.

[5:39:16 PM] Akanksha talwar: yes .... :(

[5:39:52 PM] Weekend Testing: any questions?

[5:40:27 PM] Lavanya: whenever we read the instructions, we get carried away by the time limit set and our focus is set there

[5:40:54 PM] Weekend Testing: whose mistake?

[5:41:15 PM] Weekend Testing: aren't we supposed to be testers?

## WT 81 - PowToon

[5:41:49 PM] Weekend Testing: "who know that things can be different" - headline of Michael Bolton's website - [www.developsense.com](http://www.developsense.com)

[5:42:10 PM] Lavanya: yes right..we understand

[5:42:53 PM] Weekend Testing: what could have been different in this session?

[5:43:15 PM] Raghu S: clarity of your mission

[5:43:39 PM] Raghu S: maybe negotiate with the client to help with his mission

[5:43:59 PM] Weekend Testing: how will client know unless you speak up?

[5:44:02 PM] Raghu S: Our mission was to give feedback on the product, not to make a presentation

[5:44:28 PM] Raghu S: yes

[5:45:39 PM] Lavanya: In other words, our mission should be to help the client with providing a more productive site

[5:46:04 PM] Weekend Testing: your mission is to meet the mission provided to you

[5:47:10 PM] Raghu S: or is it? If we are in a better position to tell the client there is a better way

[5:47:27 PM] Raghu S: shouldn't we expose that too..

[5:48:07 PM] Weekend Testing: highlight! definitely highlight.

[5:48:34 PM] Lavanya: On 14/07/12, at 5:42 PM, Weekend Testing wrote:

> what could have been different in this session?

we need to ask more questions

[5:48:48 PM] Weekend Testing: yes, good point Lavanya

[5:48:56 PM] Raghu S: Fantastic.. I agree

[5:49:39 PM] Jasminka Puskar: I thought we could have had more time for experimenting with the site and find bugs than giving feedback...but only because i understood that the feedback was more about each other's presentation rather than the site.

[5:50:07 PM] Weekend Testing: of course, the feedback was on each other's presentation

[5:50:09 PM] Lavanya: @ajay@ raghu thanks:)

[5:50:13 PM] Jasminka Puskar: yes more questions, i could have asked. whose fault? mine.

[5:50:32 PM] Weekend Testing: what feedback did each one of you receive and what is your powtoon url

[5:51:31 PM] Raghu S: [4:57 PM] Raghu S:

<<< <http://www.powtoon.com/p/cilgwlc1Bq1/>

[5:51:52 PM] Raghu S: P.S: I could nt create a presentoon

[5:52:02 PM] Jasminka Puskar: <http://www.powtoon.com/p/bcrRt0p3LAh/> mine feedback received was that i had music, a created a movie, and to try the presentation mode.

[5:52:41 PM] Raghu S: couldnt provide any feedback to Akanksha on her powtoon as well

[5:52:50 PM] Weekend Testing: why

[5:53:24 PM] Raghu S: not able to open owing to the flash download issue

[5:53:44 PM] Lavanya: <http://www.powtoon.com/presentoons/drJ8Z6yyly/edit/> I appreciate the usage of words to explain better of my feedback about bugs by her

[5:53:47 PM] Weekend Testing: Then who created <http://www.powtoon.com/p/cilgwlc1Bq1/> ?

[5:54:19 PM] Raghu S: thats interesting Ajay, the link gets created first

[5:54:35 PM] Raghu S: and then the message download flash comes

[5:55:07 PM] Weekend Testing: nice Raghu & Jasminka!

[5:55:13 PM] Weekend Testing: awesome toons.

[5:55:21 PM] Raghu S: tnx

[5:55:21 PM] Weekend Testing: looking at Lavanya's toon now

[5:55:58 PM] Jasminka Puskar: also i think it hard to say all the things that some other person could have done, if the person giving the feedback does not know much about the site's possibilities.

[5:56:16 PM] Weekend Testing: Lavanya - unable to open the link

[5:56:24 PM] Weekend Testing: I think you need to share

[5:56:28 PM] Weekend Testing: after saving

[5:56:42 PM] Lavanya: but jasminka was able to see

[5:56:53 PM] Jasminka Puskar: yes i am able to see

[5:59:36 PM] Lavanya: oh

[6:00:15 PM] Raghu S: @ WT ,feedbacks on the session is it?

[6:00:24 PM] Lavanya: can others view my url?

[6:00:26 PM] Weekend Testing: i see bits & pieces - slides, text,

[6:00:32 PM] Weekend Testing: yes @Raghu

[6:00:50 PM] Jasminka Puskar: Ayay, have you decided on the subjects for each session? what will be covered?

[6:01:04 PM] Weekend Testing: the course or WT?

[6:01:16 PM] Weekend Testing: you want anything specific? ;)

[6:01:37 PM] Raghu S: providing of charter hindered with my flow

[6:01:52 PM] Raghu S: then again i should have negotiated as you said

[6:01:52 PM] Jasminka Puskar: I think this WT session was cool, again I've done something new. Awesome. Ajay my question was about the course. thanks.
