

## WT 98: Bug Hunting: Trello

---

[3:42:29 PM] \*\*\* Weekend Testing added Raghu S \*\*\*

[3:43:34 PM] Weekend Testing: hi Raghu, we will start in 15 mins

[3:43:58 PM] upasana pal: hi..

[3:44:25 PM] Raghu S: Thanks

[3:47:30 PM] upasana pal: hey

[3:47:41 PM] upasana pal: i ll check the

[3:49:15 PM] Weekend Testing: any of your friends willing to join?

[3:49:33 PM] upasana pal: no

[3:50:02 PM] Raghu S: nopes here too..

[3:50:19 PM] upasana pal: ya rahul

[3:54:18 PM] Weekend Testing: Welcome to WT #98

[3:54:33 PM] Weekend Testing: I am Ajay Balamurugadas, your facilitator for today

[3:54:38 PM] Weekend Testing: Please introduce yourselves

[3:55:22 PM] Weekend Testing: Testing for close to seven years, right now focusing on Mobile Apps Testing. I blog at [www.enjoytesting.blogspot.com](http://www.enjoytesting.blogspot.com) and tweet under the handle of @ajay184f

[3:55:45 PM] \*\*\* Weekend Testing added Akanksha talwar \*\*\*

[3:56:28 PM] kosha: HI ,I am kosha

[3:57:39 PM] Akanksha talwar: Hi All , I am Akanksha from B'lore, working as performance specialist..

[3:58:21 PM] upasana pal: hey all,

[3:58:33 PM] upasana pal: i m upasana from noida

[3:58:57 PM] upasana pal: working as functional

[3:59:02 PM] upasana pal: testing

[3:59:33 PM] Weekend Testing: Thanks All

[3:59:35 PM] Raghu S: Hello Friends.

Raghu here from Kochi, India. I'm a context driven tester currently testing web applications in the insurance domain.

## WT 98: Bug Hunting: Trello

---

Been testing for close to 4 years now. Keen to learn new stuff in Exploratory testing world.

[3:59:42 PM] Weekend Testing: Welcome to the Weekend Testing Session #98

Today's theme for the session is "Bug Hunting"

A testing team wants to track completion of their test ideas over Trello. ([www.trello.com](http://www.trello.com)) Please test and recommend if there are any major issues which will waste tester's time.

[3:59:50 PM] Weekend Testing: Feel free to ask any questions.

[4:02:18 PM] Akanksha talwar: This means we have to come up with requiremnt for testing?

[4:03:26 PM] Weekend Testing: no, they want to use trello to track their test ideas

[4:03:43 PM] Weekend Testing: you will have to tell after your testing

[4:03:51 PM] Weekend Testing: if trello is useful or not

[4:04:21 PM] Weekend Testing: At the end of one hour, we expect a test report which can have observations, issues/bugs and final recommendation.

[4:04:32 PM] Weekend Testing: It could be in the form of a doc or mindmap or excel

[4:04:39 PM] Weekend Testing: (o) starts now

[4:04:45 PM] upasana pal: ok

[4:04:50 PM] Weekend Testing: see you after an hour. let me know if any question

[4:06:22 PM] Raghu S: What type of testers are we taling about? Any specific audience.

[4:06:51 PM] Weekend Testing: good question

[4:06:59 PM] Weekend Testing: experience - 2 to 8 years

[4:07:08 PM] Weekend Testing: everyone works hands - on

[4:07:11 PM] Weekend Testing: testing

[4:07:39 PM] upasana pal: its functional testig

[4:07:40 PM] Weekend Testing: they test all kinds of applications including mobile apps

[4:08:07 PM] upasana pal: testcase with excel format

[4:08:16 PM] Weekend Testing: what is that?

## WT 98: Bug Hunting: Trello

---

[4:08:33 PM] upasana pal: doc.

[4:08:35 PM] upasana pal: prap.

[4:08:41 PM] upasana pal: which format

[4:09:14 PM] Weekend Testing: you can submit your test report in any format

[4:09:20 PM] upasana pal: ok

[4:09:46 PM] Raghu S: What do you mean by "track completion of their test ideas"

[4:09:57 PM] Raghu S: Please explain test ideas..

[4:10:03 PM] Weekend Testing: what do you understand when you read it

[4:10:47 PM] Raghu S: Give me a sec. let me think..

[4:11:38 PM] Raghu S: An test idea can be identifying scenarios to test even before a test environment is ready.

[4:11:51 PM] Weekend Testing: an even if its ready

[4:12:00 PM] Weekend Testing: a test idea is an idea for a test

[4:12:24 PM] Weekend Testing: ex: I want to test what happens if same account is opened in multiple browsers

[4:12:28 PM] Weekend Testing: its a test idea

[4:12:40 PM] Raghu S: ok

[4:12:59 PM] Weekend Testing: you can correct the statement to 'track completion of execution of test ideas'

[4:15:16 PM] Raghu S: So as i see it there can be multiple phases were trello could be used.

Test Ideation

Execution Monitoring and tracking

Test Closure

[4:17:56 PM] Weekend Testing: Any other questions? 17 mins done. 43 mins left

## WT 98: Bug Hunting: Trello

---

[4:18:35 PM] Raghu S: Can I assume a test team will use this collaboratively. Comprising of a test manager, leads and testers.

[4:18:43 PM] Weekend Testing: yes

[4:33:31 PM] Weekend Testing: Sharing a board - Is that possible? Some of the testers might like to share a board

[4:34:06 PM] Raghu S: yes. Me n Akanksha are pair testing

[4:35:52 PM] Weekend Testing: will be offline for a minute

[4:46:04 PM] Weekend Testing: that was long, last 15 mins

[4:52:24 PM] Weekend Testing: Please finalize your test reports

[4:52:31 PM] Weekend Testing: last 8 mins

[4:53:16 PM] Raghu S: Please permit a 10 min extension

[5:00:38 PM] Weekend Testing: ok, five more mins

[5:00:47 PM] Weekend Testing: others, is the report ready?

[5:02:40 PM] Weekend Testing: @kosha, @Upasana

[5:03:20 PM] upasana pal: pls permit 10 min more

[5:04:12 PM] Weekend Testing: ok

[5:04:34 PM] upasana pal: ok

[5:05:11 PM] Raghu S: Where should we upload the reports?

[5:05:18 PM] Weekend Testing: dropbox

[5:05:23 PM] Weekend Testing: and share the link here

[5:05:35 PM] Weekend Testing: or if its less than 1 mb, send it over skype to me

[5:11:58 PM] Weekend Testing: shall we wrap up plz

[5:12:49 PM] Raghu S: I'm done . Test MMs sent..

[5:15:42 PM] Weekend Testing: Kosha, Upasana?

[5:15:52 PM] Weekend Testing: ok, Raghu - lets start

[5:16:02 PM] Weekend Testing: How was the experience?

## WT 98: Bug Hunting: Trello

---

[5:16:09 PM] Weekend Testing: Did you achieve the mission?

[5:16:25 PM] Raghu S: It was tough

[5:16:43 PM] Raghu S: I tried peer testing with notes on mind maps..

[5:16:46 PM] Weekend Testing: tell me more...

[5:16:58 PM] Weekend Testing: ok

[5:17:05 PM] Raghu S: wont be able to achieve uninterrupted test sessions

[5:17:17 PM] Raghu S: coz of the frequent pings.

[5:17:28 PM] Weekend Testing: you could have worked solo too

[5:17:56 PM] Raghu S: yes but there was an invite to pair test with Akanksha, so i dint refuse..

[5:18:07 PM] Weekend Testing: ok

[5:18:09 PM] Raghu S: One good thing was i kept test reporting separate.

[5:18:17 PM] Weekend Testing: how did you approach this session?

[5:18:20 PM] Raghu S: So my thoughts cryztallized.

[5:18:54 PM] Raghu S: Testing and learning in parallel was the approach.

[5:19:05 PM] Raghu S: Notes were mind mapped

[5:19:12 PM] Raghu S: also collaborated with peers

[5:19:17 PM] Weekend Testing: ok, both edited the map

[5:19:20 PM] Weekend Testing: or just you

[5:19:26 PM] Raghu S: both.

[5:19:50 PM] Weekend Testing: what is your impression about Trello

[5:20:13 PM] Raghu S: Test Recommendations

1. Rich features and online availability.
2. A Question of privacy of data in case of Confidential information.
3. To do, doing , done is fun.

## WT 98: Bug Hunting: Trello

---

4. Unable to retrieve closed boards.

5. A chat feature could help.

[5:20:26 PM] Raghu S: item 4 is wrong..

[5:20:48 PM] Weekend Testing: ok, what feature of Trello will you highly recommend?

[5:21:09 PM] Raghu S: Collaborative boards.

[5:21:18 PM] Weekend Testing: why

[5:21:33 PM] Weekend Testing: what's so special about it that other software don't have

[5:21:53 PM] Raghu S: sorry i didnt check competition..

[5:22:01 PM] Weekend Testing: ok

[5:22:02 PM] Raghu S: this is my first time using such a tool.

[5:22:12 PM] Weekend Testing: did you meet the mission?

[5:22:18 PM] Weekend Testing: do you recommend this tool?

[5:22:30 PM] Raghu S: no i didnt meet the mission.

[5:22:41 PM] Raghu S: Will require further testing for recommendation

[5:22:48 PM] Weekend Testing: how much more time will you need to come up with a conclusion?

[5:23:26 PM] Raghu S: A 2 hour peer test session..

[5:23:38 PM] Weekend Testing: ok

[5:23:55 PM] Raghu S: I also helped Upasana with the basics

[5:23:56 PM] Weekend Testing: thanks, I will ask client if they have the time. :)

[5:24:06 PM] Weekend Testing: Anything else you want to share?

[5:24:15 PM] kosha: hi .I am not happy with trello software

[5:24:16 PM] Raghu S: thats it.

[5:24:30 PM] Weekend Testing: Thanks Raghu

[5:24:40 PM] Weekend Testing: Yes, Kosha, tell us more about it

[5:24:53 PM] kosha: actually it's has some basic good features

## WT 98: Bug Hunting: Trello

---

[5:25:12 PM] kosha: but not so much user friendly

[5:25:25 PM] Weekend Testing: what issues did you face, Kosha?

[5:25:38 PM] upasana pal: kosha is right is not more user friendly

[5:25:45 PM] upasana pal: :(

[5:25:56 PM] kosha: first of any normal user comes with this software ,he can't able to understand what is it ?

[5:26:05 PM] Weekend Testing: As testers, we need to provide information with proof

[5:26:08 PM] kosha: why we are using this

[5:26:14 PM] kosha: ?

[5:26:21 PM] Weekend Testing: can't just say that its not user-friendly/

[5:26:35 PM] kosha: yup we have proof

[5:26:51 PM] kosha: just check it's home page

[5:26:52 PM] Weekend Testing: won't <https://trello.com/tour> help the new user?

[5:27:14 PM] kosha: u don't get at least basic idea

[5:27:25 PM] kosha: nop ,not so much

[5:27:38 PM] Weekend Testing: hmm, there should be more text or images at home page itself?

[5:28:12 PM] kosha: the words they are using like board ,card etc are not so much easy to understand for normal user

[5:28:25 PM] Weekend Testing: ok, reasonable point

[5:28:47 PM] kosha: hummm.so I am not recommend this product

[5:29:14 PM] kosha: even thought graphic is not attractive

[5:29:31 PM] Weekend Testing: don't you think testers will understand it quickly?

[5:29:32 PM] kosha: lots of option are available

[5:29:51 PM] kosha: which makes testers more confuse

[5:30:08 PM] Weekend Testing: ok

[5:30:10 PM] Raghu S: they have got a good help but not sure if ppl will read

## WT 98: Bug Hunting: Trello

---

[5:30:57 PM] Weekend Testing: what kind of tests did you run?

[5:31:30 PM] kosha: I think in any website options should be some limited and effective ,so user can use it easily

[5:31:59 PM] Weekend Testing: I understand,,, what tests did you run?

[5:32:34 PM] kosha: i just did explore testing with trying to understand flow

[5:33:45 PM] kosha: what do you think Ajay ?Am i right or not ?

[5:34:10 PM] Weekend Testing: i just did explore testing - meaning what?

[5:34:17 PM] Weekend Testing: that is not a test

[5:34:27 PM] Weekend Testing: not even a description of a test

[5:35:08 PM] kosha: explore means i made everything in website ,what normal user try to do ,after seeing any new website

[5:35:23 PM] kosha: like create account

[5:35:28 PM] kosha: making board

[5:35:33 PM] kosha: adding task

[5:35:39 PM] kosha: adding card

[5:35:44 PM] kosha: organization

[5:35:47 PM] kosha: etc...

[5:35:52 PM] Weekend Testing:

<http://www.associationforsoftwaretesting.org/about/membership/skype-coaching/>

[5:35:57 PM] Weekend Testing: might help

[5:36:07 PM] kosha: i did one whole flow

[5:36:24 PM] Weekend Testing: anyone read this before?

[5:37:40 PM] Raghu S: i have but only now did i get the context..

[5:38:08 PM] Weekend Testing: ok, Kosha - your final recommendation - yes or no?

[5:39:09 PM] kosha: No.i think in market there are more better options available

[5:39:16 PM] Weekend Testing: like?

[5:40:07 PM] kosha: i like base camp

## WT 98: Bug Hunting: Trello

---

[5:41:46 PM] Weekend Testing: ok

[5:42:01 PM] Weekend Testing: maybe in one of the sessions, we should test basecamp :)

[5:42:40 PM] Weekend Testing: Thanks Kosha

[5:42:51 PM] Weekend Testing: Upasana - what do you say?

[5:43:46 PM] kosha: hehehehe..sure

[5:43:49 PM] kosha: we will

[5:43:59 PM] kosha: i hope u will find it more better

[5:44:11 PM] kosha: :)

[5:44:14 PM] Weekend Testing: Lets listen to Upasana's experience

[5:44:20 PM] kosha: ok

[5:45:03 PM] Weekend Testing: and the reports from Kosha & Upasana?

[5:45:14 PM] upasana pal: i m not done send th doc

[5:45:17 PM] upasana pal: please

[5:45:19 PM] upasana pal: check

[5:45:30 PM] upasana pal: which ii prap.

[5:46:13 PM] kosha: Ajay.i will send u after some time .if u don't mind

[5:46:21 PM] Weekend Testing: ok

[5:46:29 PM] Weekend Testing: Upasana, I don't understand

[5:46:30 PM] kosha: where will i send u

[5:46:31 PM] kosha: ?

[5:46:34 PM] Weekend Testing: where is the report

[5:46:40 PM] Weekend Testing: weekendtesting@gmail.com

[5:46:48 PM] kosha: ok.done

[5:49:54 PM] Weekend Testing: Upasana - you there?

[5:50:09 PM] Raghu S: She's showing offline!

## WT 98: Bug Hunting: Trello

---

[5:50:10 PM] Weekend Testing: i see her offline

[5:50:22 PM] Weekend Testing: any questions Raghu, Kosha?

[5:50:32 PM] Weekend Testing: lets wrap up if no questions

[5:50:49 PM] Raghu S: how should we approach this mission

[5:51:05 PM] Raghu S: what test heuristics dyu suggest?

[5:51:09 PM] Weekend Testing: think of possible use cases for this mission

[5:51:23 PM] Weekend Testing: get more information about how it will be used

[5:51:26 PM] Weekend Testing: and who will use

[5:51:31 PM] Weekend Testing: the frequency of use

[5:51:42 PM] Weekend Testing: and then try out the usecases in trello

[5:51:49 PM] Weekend Testing: then think of exceptions

[5:51:53 PM] Weekend Testing: or rare cases

[5:52:20 PM] Weekend Testing: Then, club it with Trello's features, usability & any other bugs

[5:52:39 PM] Weekend Testing: One could have created the final report using Trello itself

[5:52:50 PM] Weekend Testing: To do can have cards like - explore features

[5:52:53 PM] Raghu S: wow thats nice.

[5:53:12 PM] Weekend Testing: then once you explore features, you can list them under doing or done

[5:53:27 PM] Weekend Testing: invite people to work collaboratively

[5:53:34 PM] Weekend Testing: and then think of exporting

[5:53:41 PM] Weekend Testing: isn't this helpful?

[5:54:04 PM] Raghu S: so do we divide time for each..

[5:54:15 PM] Weekend Testing: ya, even that can be done

[5:54:27 PM] Weekend Testing: you could have tried copy paste content from here to trello too

[5:54:50 PM] Raghu S: ok great..

[5:55:02 PM] Weekend Testing: and say - one of the testers forgets password

## WT 98: Bug Hunting: Trello

---

[5:55:08 PM] Weekend Testing: or leaves the company

[5:55:17 PM] Weekend Testing: how easy would it be to add one more tester

[5:55:28 PM] Weekend Testing: and how can you ensure that data is protected

[5:55:39 PM] Weekend Testing: all these test ideas could have been tested.

[5:55:59 PM] Raghu S: yeah..

[5:56:13 PM] kosha: yup.that's big point

[5:56:40 PM] Weekend Testing: this would have covered points like capability, reliability

[5:56:42 PM] Weekend Testing: security

[5:56:47 PM] Weekend Testing: comptability

[5:56:49 PM] Weekend Testing: performance

[5:56:52 PM] Weekend Testing: usability

[5:57:01 PM] Weekend Testing: from the CRUSSPICSTMPL heuristic

[5:57:54 PM] kosha: but for consider all these point ,we need more time

[5:58:03 PM] Weekend Testing: not really :)

[5:58:18 PM] Weekend Testing: with practice, one can finish all of the above in less than 35 mins

[5:58:41 PM] kosha: really?

[5:58:46 PM] Weekend Testing: yes

[5:58:59 PM] Weekend Testing: do you practice testing other than working at office?

[5:59:40 PM] kosha: nop.still not..but i think i must do that

[5:59:43 PM] Weekend Testing: yes

[5:59:49 PM] kosha: but how can i do that

[5:59:58 PM] Raghu S: Kosha you are doing it now..

[6:00:07 PM] kosha: ya that's right

[6:00:10 PM] Weekend Testing: will take this offline. ping ajay184f on skype

[6:00:21 PM] Weekend Testing: Thanks Kosha, Raghu, Upasana.

## WT 98: Bug Hunting: Trello

---

[6:00:38 PM] Weekend Testing: See you on June 30th

[6:00:45 PM] Raghu S: thanks Ajay. catch you next time..

[6:00:54 PM] Weekend Testing: The reports will be uploaded to [www.weekendtesting.com](http://www.weekendtesting.com)

[6:01:05 PM] kosha: thanks ajay

[6:01:10 PM] kosha: see u soon
