Explore 'Empty Notes' feature to discover any functional issues with 'Remind Me'

- Empty note allows to add remind me feature, why can't throw error? - question
- It allows to delete timer
- It doesn't allow to set past date & time
- If we enter the past time, it shows red colour, why can't give alert like please select future date- question
- 'Empty Notes' section displayed for the first time, after it is not displayed even if you don't have any notes or reloading page. - question
 - It will be appeared once you click 'new note with drawing' and click back button
- We can edit the date field with Sep 2022, it displayed correctly in the calendar
- If we select date in date field Feb 29 2024 and set repeated as 'yearly' how reminder behaves (might skip if doesn't meet). Should we consider this one while designing?- question

- If we type wrong date in date field Feb 18 2020, it display red colour in time field, it should be displayed in date field- bug
