

Subtopic 1

1. if same user has keep app on more than one phone , will data sync on all the platform?

1. what support it has for specially abled person

1. can user put snooze for the reminder

1. what kind of permission this app require?

1. will data of user saved any where?
2. if user creates some notes , and then deletes app, and then reinstall, will user notes be visible

3. check version upgrade

4. does keep have support for web platform

5. What all platform keep support?
6. what all countries supported by Keep

Accessibility

synch

Permission

Reminder

Archive

Sharing

Labels

Claims

Drawing

installation

Notes

Audio

1. Can a note be automatically archived based on the last edit or used.? if so then can user configure it?

if user disable setting , then will user be able to share note ?

2. what all options user have for sharing

1. what version of Android and iOS it supports

1. maximum size of audio recording
2. what is the maximum limit of note title
3. what is the format of audio

1. maximum limit of labels user can create

1. what is the maximum size of each note
2. what is the format of drawing.

3. what is the logic of order in which notes are arranged ? when I edit a note, it does not come at the top, so order is not based on last edit

4. how many notes can be pinned ?

5. keep shows date time of last edit , can user change date time format

6. what language it supports

7 Does keep saves geolocation while taking notes
