

WT65 – TaskCoach – Session Chat Transcript

[3:52:42 PM] Weekend Testing: Hi, adding others to this group chat

[3:52:46 PM] *** Weekend Testing added Akanksha talwar ***

[3:53:40 PM] *** Weekend Testing added Selim Mia ***

[3:53:55 PM] Weekend Testing: Hello Akanksha, Selim, Priyank

[3:54:02 PM] Weekend Testing: Welcome to WT 65

[3:54:06 PM] Priyank Shah: Hello

[3:54:11 PM] Selim Mia: hello all

[3:54:13 PM] Akanksha talwar: Hi everybody

[3:54:18 PM] Weekend Testing: Please download the installer from <http://sourceforge.net/projects/taskcoach/>

[3:54:44 PM] *** Weekend Testing added Balu ***

[3:54:45 PM] Priyank Shah: done. installer downloaded & installed

[3:54:54 PM] Weekend Testing: [3:54 PM] Weekend Testing:

<<< Please download the installer from <http://sourceforge.net/projects/taskcoach/>

[3:54:56 PM] Weekend Testing: ok.

[3:55:06 PM] Weekend Testing: We will start in 5 mins sharp

[3:55:15 PM] Priyank Shah: ok

[3:55:41 PM] Weekend Testing: Please introduce yourselves - Name, Experience, Place, blog/twitter

[3:56:17 PM] Priyank Shah: Priyank Shah/3 yrs exp in Manual testing from Baroda - Gujarat

[3:56:24 PM] Balu: Balaji, tester, Hyderabad, twitter: balajiponnada Blog:balajiponnada.wordpress.com

[3:57:37 PM] Selim Mia: Selim Mia/7yrs exp in sw testing from Bangladesh, currently in Japan

[3:57:47 PM] Selim Mia: twitter: dedicatedtester

[3:58:24 PM] Weekend Testing: Welcome All, Ajay Balamurugadas, 5+, Bangalore, www.EnjoyTesting.blogspot.com , @ajay184f

[3:58:50 PM] Akanksha talwar: I am Akanksha talwar, tester from Bangalore. tweet me @ aku24

WT65 – TaskCoach – Session Chat Transcript

[3:59:21 PM] Weekend Testing: ok, thanks everyone. Downloaded?

[3:59:28 PM] Akanksha talwar: yes

[3:59:34 PM] Weekend Testing: URL to download the installer

<http://sourceforge.net/projects/taskcoach/>

For first timers, Let me tell you in brief how a WeekendTesting session is conducted:

We will have an hour of testing session followed by an hour of discussion session.

Testing Session:

A mission would be provided and you are left on your own to work towards the mission.

You may use any tools or any techniques. You are responsible for your testing. You can ask questions in this chat or ping me in private if you do not

want to disturb others.

Please feel free to ask any questions. You can pair up with any tester or wish to work solo.

In the discussion session, we will discuss on how you approached the mission, learning, mistakes and any other interesting experience.

And finally we are here to learn, share knowledge in a fail safe environment.

Lets get started.

Today's session is about Task Coach <http://sourceforge.net/projects/taskcoach/>

Today's session concentrates on pairing up with a tester and preparing a document how you will approach testing this application.

Time to prepare the report: 1 hr.

WT65 – TaskCoach – Session Chat Transcript

According to the programmer, you get 3 hrs to test. So, make sure your approach helps you test within 3 hrs.

Let us start.

[4:00:25 PM] Weekend Testing: One of the useful tools to collaborate is www.typewith.me

[4:00:42 PM] Weekend Testing: or you could also use www.mindmeister.com for online mindmapping

[4:00:56 PM] Weekend Testing: Will you pick the pairs or do you want me to pick the pairs?

[4:01:08 PM] *** Weekend Testing added vamshi ***

[4:01:41 PM] Balu: I'm in office and may not be able to participate actively. Please do not pair me up. I'll do it alone.

[4:02:11 PM] Weekend Testing: ok

[4:02:22 PM] Weekend Testing: Selim & Priyank - Pair?

[4:02:28 PM] Weekend Testing: Vamshi & Akanksha>?

[4:02:32 PM] Akanksha talwar: yup

[4:02:42 PM] vamshi: ok

[4:02:45 PM] Akanksha talwar: Vamshi join me at <http://typewith.me/y38E0ssPER>

[4:03:16 PM] Priyank Shah: selim join me at <http://www.typewith.me/H7WtnzXRXq>

[4:03:28 PM] Selim Mia: ok

[4:03:44 PM] Weekend Testing: Feel free to ask questions/

[4:03:48 PM] Priyank Shah: sure

[4:03:52 PM] Weekend Testing: I am here to answer them.

[4:04:02 PM] Akanksha talwar: :)

[4:04:16 PM] Balu: [3:58 PM] Weekend Testing:

<<< According to the programmer, you get 3 hrs to test. So, make sure your approach helps you test within 3 hrs.3hrs to test?

[4:04:35 PM] Weekend Testing: Using your test strategy, you have only 3 hrs to test.

WT65 – TaskCoach – Session Chat Transcript

[4:04:39 PM] Weekend Testing: does that make sense?

[4:04:50 PM] Priyank Shah: ok

[4:05:07 PM] Selim Mia: 3 hrs?

[4:05:25 PM] Balu: no. not completely. Do you say that we have 3 hrs to test and test only for an hour now and submit report?

[4:05:53 PM] Weekend Testing: No, YOu have 1 hr to prepare your test strategy or test plan or a checklist

[4:06:15 PM] Weekend Testing: And the available time for testing is 3 hrs.

[4:06:37 PM] Selim Mia: so, how long this session will continue?

[4:06:42 PM] Balu: so preparing test plan is our mission? or just the test strategy?

[4:06:48 PM] Weekend Testing: Don't you think your approach will be different if you had 1 week to test

[4:07:01 PM] Weekend Testing: and a different approach if you had 30 mins to test?

[4:07:08 PM] Weekend Testing: Imagine you have 3 hrs to test

[4:07:15 PM] Weekend Testing: but only 1 hr to plan

[4:07:21 PM] Balu: yes approach would be different with time

[4:07:43 PM] Weekend Testing: This session will go on for 2 hrs - 1 hr to prepare test approach document and 1 hr for de-brief , discussion

[4:08:00 PM] Selim Mia: got it, this session only for plan

[4:08:11 PM] Weekend Testing: yes Selim.

[4:08:34 PM] Weekend Testing: with a mindset that you get 3 hrs to test once you complete your document.

[4:09:29 PM] Weekend Testing: Any other questions?

[4:09:45 PM] Priyank Shah: nope as of now

[4:10:41 PM] Balu: Is that only one tester to be considered for planning or is there a team?

[4:10:49 PM] Weekend Testing: team of 2

[4:10:54 PM] Balu: ok

[4:12:01 PM] *** Weekend Testing added organon ***

WT65 – TaskCoach – Session Chat Transcript

[4:13:13 PM] Weekend Testing: Welcome Phanindra.

[4:15:59 PM] *** Weekend Testing added Ravisuriya ***

[4:16:18 PM] Weekend Testing: Welcome Ravisuriya.

[4:16:26 PM] Weekend Testing: Any questions folks?

[4:17:02 PM] Balu: No right now

[4:18:29 PM] Weekend Testing: Balu & Ravi: I suggest that both of you join one discussion each.

[4:18:41 PM] Weekend Testing: [4:03 PM] Priyank Shah:

<<< <http://www.typewith.me/H7WtnzXRXq><http://typewith.me/y38E0ssPER>

[4:19:27 PM] Balu: I'm there

[4:22:44 PM] Weekend Testing: Everyone on track?

[4:22:55 PM] Weekend Testing: close to 25 mins has elapsed.

[4:46:10 PM] Weekend Testing: 15 more mins

[4:55:15 PM] Ravisuriya: [4:58 PM] Ravisuriya:

<<< What kind of problems or what kind of information or what benefit the programmer is expecting from testing?

[4:56:07 PM] Weekend Testing: The programmer is interested to know how consistent is his application with Microsoft Windows standards

[4:56:39 PM] Ravisuriya: What standards of Microsoft Windows?

[4:57:17 PM] Weekend Testing: <http://msdn.microsoft.com/en-us/library/aa511258.aspx>

[4:58:22 PM] Ravisuriya: Looks like i got same URL on searching.

[4:58:31 PM] Weekend Testing: ok

[4:58:37 PM] Weekend Testing: Good questions

[4:58:42 PM] Weekend Testing: but I think pretty late

[4:59:23 PM] Ravisuriya: I appologize. I was witnessing network problem consistently.

WT65 – TaskCoach – Session Chat Transcript

[5:00:44 PM] Weekend Testing: Please stop testing

[5:01:07 PM] Priyank Shah: ok

[5:02:09 PM] Weekend Testing: Hello

[5:02:15 PM] Balu: Hello

[5:02:20 PM] Weekend Testing: everyone here?

[5:02:21 PM] vamshi: ok

[5:03:15 PM] Akanksha talwar: yes

[5:03:15 PM] Weekend Testing: Please take 7 mins

[5:03:25 PM] Weekend Testing: and lets meet at 5:10

[5:03:31 PM] Weekend Testing: with your experience report

[5:04:04 PM] Priyank Shah: experience report?

[5:04:09 PM] Weekend Testing: Please type in offline editor like notepad

[5:04:14 PM] Weekend Testing: * How was this session?

* How was this session different from previous sessions?*

[5:04:19 PM] Weekend Testing: * Any learning

[5:04:26 PM] Weekend Testing: * Did you meet the mission

[5:04:39 PM] Weekend Testing: * What approach you use in your team

[5:04:50 PM] Weekend Testing: Answer these questions & report is ready.

[5:04:58 PM] Weekend Testing: * Overall experience

[5:09:43 PM] Weekend Testing: Ready?

[5:10:52 PM] Weekend Testing: (bug)

[5:11:30 PM] Weekend Testing: (heidy) anyone here?

[5:11:37 PM] Selim Mia: yes

[5:11:48 PM] Balu: yes

[5:12:04 PM] Weekend Testing: Akanksha, Priyank, Vamshi?

WT65 – TaskCoach – Session Chat Transcript

[5:12:08 PM] Weekend Testing: ready?

[5:12:19 PM] Priyank Shah: yes

[5:12:27 PM] Weekend Testing: Who wants to start?

[5:12:30 PM] Weekend Testing: please start

[5:12:46 PM] Balu: How was this session?

* How was this session different from previous sessions?*

Planning sessions are always challenging and important for smooth running of testing project. Its different that we are not testing but estimating and deciding on what and how much can be tested within the time line. Key thing - Managing to

meet deadline

* Any learning

Yes. Practise obtained to plan in time with deadline.

* Did you meet the mission

No. Couldn't completely plan within the time given

* What approach you use in your team

Went through the application quickly and found that it cannot be tested completely in $3 \times 2 = 6$ hrs.

I thought we should atleast test if the application is doing what it is expected to do.

Opened help document to quickly know what the application should do and picked up the topics from there.

Identified few key functionalities - http://dl.dropbox.com/u/20061674/Task_coach.pdf

Planning to assign the time each task can be worked on and distribute the tasks among the team.

[5:13:37 PM] Weekend Testing: overall experience

[5:14:24 PM] Balu: i feel like we need to do one more similar session to learn from the mistakes done this time and plan effectively

[5:15:05 PM] Balu: Also felt one hour is not enough to plan testing :)

WT65 – TaskCoach – Session Chat Transcript

[5:16:03 PM] Balu: Akansha, please add anything i missed in your experience report

[5:16:35 PM] Weekend Testing: ok

[5:17:00 PM] Weekend Testing: What was the mission?

[5:17:15 PM] Weekend Testing: Did anyone of you know what the programmer wanted you to test?

[5:17:43 PM] Weekend Testing: and the report?

[5:18:12 PM] Priyank Shah: I think programmer wants us to test the task process flow. mean creation to completion

[5:18:20 PM] Weekend Testing: how do you know?

[5:18:44 PM] Priyank Shah: well in just time of 3 hours, i don't think any tester can complete testing more that what i mentioned

[5:19:01 PM] Balu: [3:58 PM] Weekend Testing:

<<< Today's session concentrates on pairing up with a tester and preparing a document how you will approach testing this application.This was the mission

[5:19:02 PM] Priyank Shah: also the main aim of application is task management

[5:19:26 PM] Weekend Testing: testing this application - but test for What?

[5:19:40 PM] Balu: test for what it is created - Function testing

[5:19:52 PM] Weekend Testing: I think you folks missed a trick by assuming what the programmer wanted

[5:20:18 PM] Balu: Please eloborate ajay

[5:20:32 PM] Weekend Testing: ok, lets hear from others and then we can discuss/

[5:20:35 PM] Balu: ok

[5:21:16 PM] Selim Mia: As test team has only 3 hours to test the whole

application, so we decided to list out all the

core functionlities of the application as checklist.

So that test team don't miss any important not tested.

WT65 – TaskCoach – Session Chat Transcript

[5:22:07 PM] Akanksha talwar: I think they want if the flow of the application is correct, suppose we are able to create the Task, if its calculating effor correctling, snoozing on time etc

[5:22:48 PM] Weekend Testing: If you have written the answers to the key points like Balu, please copy paste. It saves time

[5:24:00 PM] Priyank Shah: Here is my entire experience report:

How was the session?

Session is quite good. Good to learn how to prioritize the application functionalities to complete the testing in short time. Also it shows that sometimes points/checklists are better than long planning docs.

How was this session different from previous sessions?

Can't say anything about comparision as this is my first session.

Lot to learn: Prioritization, Quick application understanding, Risk based approach, How to work & Synchronize with new person

Not being able to met the goal. Required little bit more time to finalize. Still thought met upto 60-70%.

Strategy by both of us as team:

Initially we both went through the features of the application. Than we have divided the Toolbars to prepare checklist points. I was preparing for the main menu toolbar & Selim was preparing for other Task toolbar.

Overall experience is nice. Although time is too short to prepare entire strategy. Will look forward to attend one more same session in future.

[5:24:22 PM] Ravisuriya: Can I share my learning.

[5:24:31 PM] Ravisuriya: if other are done.

[5:24:46 PM] Weekend Testing: Any questions to Balu & Priyank?

[5:25:09 PM] Weekend Testing: The final report Priyank & Selim?

WT65 – TaskCoach – Session Chat Transcript

[5:26:24 PM] Priyank Shah: This was prepared by me only. I think Selim also paste his report which may contains some additional points

[5:26:51 PM] Weekend Testing: the report which describes how you would test - That report

[5:27:26 PM] Priyank Shah: ya that is what we had decided on how to work. Selim please confirm

[5:27:58 PM] Selim Mia: How was the session?

It was really a differnt experience for me to

prepare a test plan only in 1 hour to test application

only in 3 hours. I also enjoyed to work with my

peer Priyank as he quickly understand the

purpose and demand.

At the beginning we have discussed

how we should should proceed and we devided our

own tasks for the session.

As test team has only 3 hours to test the whole

application, so we decided to list out all the

core functionlities of the application as checklist.

So that test team don't miss any important areas not tested.

[5:28:03 PM] Weekend Testing: Is <http://www.typewith.me/H7WtnzXRXq> your final report?

[5:28:19 PM] Selim Mia: yes

[5:28:26 PM] Weekend Testing: ok, cool

[5:28:30 PM] Priyank Shah: yes

[5:28:38 PM] Weekend Testing: two teams - two different approaches.

[5:28:48 PM] Weekend Testing: Ravisuriya, you can copy paste

[5:29:26 PM] Ravisuriya: * How was this session?

Looking at the activity or test mission, it was interestig one. I was able make out few hidden confusions.

WT65 – TaskCoach – Session Chat Transcript

* How was this session different from previous sessions?*

This session says to bring up the ideas or approaches how to test the application. The kind of information expected was -- How consistent TASK COACH is with Windows UX Interaction Standards of GUI.

framing of test ideas and strategies. Hope this kind of mission was not provided earlier in specific.

* Any learning

Since I spent most of the time in fixing up the problem I had network, did not participate. Have to plan to have another spare datacard was my learning in this session.

* Did you meet the mission

No. I did not start to work on mission at all.

* What approach you use in your team

I assume the 'team' here means the team at work place. If not let me know. At work place, most of the time there would be ideas of the senior people in team. But still work on their ideas and later start using the ideas I have.

WT65 – TaskCoach – Session Chat Transcript

Time would be the constraint for project management team while it is given to testing. So the approach has to be designed while testing the app and has to be done parallelly.

Would ask what kind of bugs they are looking for and work to make the tests that find such bugs.

[5:29:47 PM] Weekend Testing: ok

[5:30:21 PM] Weekend Testing: Only Ravisuriya asked about what kind of information is expected

[5:30:34 PM] Weekend Testing: Akanksha, you want to paste your experience report?

[5:30:36 PM] Weekend Testing: Vamshi?

[5:30:41 PM] Akanksha talwar: yes

[5:30:48 PM] Akanksha talwar: Experience report:

How was this session?

- Session was very informative as always. Pair testing was main motto. while doing the pair testing have to come up with the test strategy and testing effort to test the tool in 3 hrs.

*How was this session different from previous sessions?

- I tried to understand the tool fast and thinking with strategies which we can follow. then divides the tools into main modules.

Any learning

- pairtesting

- mind map (thanks to Balu)

- Different test strategies which can be follow for testing

- calculate the test effort.

WT65 – TaskCoach – Session Chat Transcript

Did you meet the mission

have not able to meet the goal completely.

What approach you use in your team

we came up with the high level task.

then this task can be divided into no. of tester by doing reverse engineering , so that it can be completed in 3 hrs. For that we also have to come up particular module can take how much time.

[5:31:47 PM] Weekend Testing: Ok, Vamshi?

[5:32:05 PM] vamshi: @weekend sent the text file in private already

[5:32:41 PM] Weekend Testing: Shall I paste it here?

[5:32:56 PM] Weekend Testing: How was this session?

This session is good for me as I paired with other testers and dividing the tasks

How was this session different from previous sessions?

- 1.Prepared mindmap for this session
2. selected the task "Printing and Exporting"
3. Faced some network issues while connecting to typewith.me

Any learning

Need to be in touch with the paired testers

WT65 – TaskCoach – Session Chat Transcript

Did you meet the mission

No. As I am not touch in with the testers.

What approach you use in your team

Took the task "Printing and Exporting" as the testers divided the tasks. Prepared the mindmap, identified a bug.

Overall experience : Learned should be in touch what other testers say

[5:32:56 PM] vamshi: ok

[5:33:28 PM] Weekend Testing: https://imo.im/fd/G/tGelkL18KT/56bls_New-Sheet.png

[5:33:41 PM] Weekend Testing: so, two maps, two typewith.me

[5:33:45 PM] Weekend Testing: docs

[5:33:47 PM] Weekend Testing: good.

[5:34:07 PM] Weekend Testing: Which Mindmap tool was that Vamshi?

[5:34:23 PM] vamshi: bubblus

[5:34:45 PM] Weekend Testing: ok, so now we can debate on the approach used

[5:34:57 PM] Weekend Testing: Why did any of you ask what was required?

[5:36:27 PM] Selim Mia: @WT, couldn't get you point properly :P

[5:36:52 PM] Weekend Testing: Ravi asked about what kind of information I am expecting from testers.

[5:37:08 PM] Weekend Testing: [4:54 PM] Ravisuriya:

<<< how you will approach testing this application.

What kind of problems or what kind of information or what benefit the programmer is expecting from testing?

WT65 – TaskCoach – Session Chat Transcript

[5:38:50 PM] Selim Mia: about the first question about approach...

[5:39:10 PM] Selim Mia: best test coverage in available time for testing

[5:39:40 PM] Weekend Testing: That was one of the approach you folks carried on with

[5:40:20 PM] Weekend Testing: But do you think you wasted time doing things while the programmer was interested in knowing if the app met the Microsoft Windows standards

[5:41:37 PM] Balu: When you mentioned 3 hrs for testing and 1 hr for planning, we've thought of prioritizing what can be tested within the time available, obviously MS standards has not been included

[5:42:17 PM] Balu: As we know that we can only test its functioning in 3 hrs, we've not thought of it. If developer is looking for it, it should've been included in the mission?

[5:42:46 PM] Selim Mia: MS standard was not mentioned in mission too

[5:42:59 PM] Weekend Testing: communication problem between multiple mediums resulted in that mission

[5:43:26 PM] Weekend Testing: Programmer Lead > Programmer > Test Manager > Test Lead > Tester > Contractor > Weekend Testing

[5:43:34 PM] Weekend Testing: :)

[5:43:37 PM] Balu: :)

[5:44:03 PM] Weekend Testing: YOu can't expect every word to be transmitted just like the original. Do you?

[5:44:17 PM] Balu: right

[5:44:30 PM] Selim Mia: but mission was clear enough, as below....

[5:44:31 PM] Selim Mia: [3:59 PM] Weekend Testing:

<<< Today's session concentrates on pairing up with a tester and preparing a document how you will approach testing this application.

Time to prepare the report: 1 hr.

According to the programmer, you get 3 hrs to test. So, make sure your approach helps you test within 3 hrs.

[5:45:02 PM] Weekend Testing: Ok, it was just a thought. Impressed by the documents. Surprised by no questions. Hope you agree that there was not much of questioning involved.

WT65 – TaskCoach – Session Chat Transcript

[5:45:17 PM] Akanksha talwar: yes

[5:45:21 PM] Selim Mia: yes

[5:45:48 PM] Balu: Yes. thats partly due to we being busy understanding the app to plan

[5:45:55 PM] Weekend Testing: In CAST 2011, there was a testing competition

[5:45:57 PM] Balu: busy in a trap :)

[5:45:59 PM] Weekend Testing: I was part of a team

[5:46:03 PM] Weekend Testing: <http://www.satisfice.com/blog/archives/605>

[5:46:22 PM] Weekend Testing: The winning team sat next to developer & asked questions on what had to be tested

[5:46:30 PM] Weekend Testing: and concentrated only on those areas

[5:46:33 PM] Weekend Testing: won th eprize.

[5:46:43 PM] vamshi: @weekend Yes agree that no questions asked and carried out the work fell into the trap

[5:48:12 PM] Selim Mia: Learning: tester should aware about trap to understand the the mission

[5:49:10 PM] Weekend Testing: So, any instances where questioning helped you in your office work?

[5:49:45 PM] Balu: Yes. always. Particularly in defining the scope of the project. Obviously in testing.

[5:50:04 PM] Selim Mia: ofcourse, questioning is very important

[5:50:48 PM] Weekend Testing: cool.

[5:51:10 PM] Weekend Testing: Any learning from this session :)

[5:51:38 PM] Balu: Learnt about an important and foremost trap - make the mission clear!!

[5:52:37 PM] Priyank Shah: another major learning: before doing any planning, be clear with scope and coverage of app under testing

[5:53:59 PM] Balu: i've an interesting scenario which falls in line with what we had done today- I shall share/take suggestions here if everything is discusses.

[5:54:04 PM] Balu: discussed*

[5:54:17 PM] Weekend Testing: all done :)

[5:55:10 PM] Priyank Shah: yes :)

WT65 – TaskCoach – Session Chat Transcript

[5:55:21 PM] Balu: There is a potential client who had asked us to create tests for certain module on their app to continue further discussions

[5:55:30 PM] Balu: what is that we should do?

[5:56:43 PM] Balu: i assume that he is looking for the tests to verify our test coverage - how much of testing we can plan for a sample module.

[5:56:54 PM] Balu: Can i assume this or question him?

[5:57:01 PM] Balu: is the mission clear here?

[5:57:04 PM] Balu: suggestions?

[5:57:08 PM] Balu: thoughts?

[5:57:09 PM] Weekend Testing: YOu can give multiple answers:

[5:57:24 PM] Weekend Testing: Ask him if he wants a quick, practical or deep answer

[5:57:34 PM] Weekend Testing: A sample test suite

[5:57:45 PM | Edited 5:57:54 PM] Weekend Testing: A document describing your assumptions & tests

[5:58:15 PM] Weekend Testing: Ask him if he is looking for test coverage

[5:58:35 PM] Weekend Testing: YOu can question him stating your assumption - That's safe :)

[5:59:27 PM] Balu: not clear. Do you want to create a sample test suite showcasing the format of tcs with the assumptions documented and then question him what he is looking for - then provide the same?

[6:00:06 PM] Weekend Testing: You can provide a sample test suite - and let him know that you would test these for x hrs

[6:00:42 PM] Weekend Testing: or prepare a document based on <http://www.developsense.com/blog/2010/11/context-free-questions-for-testing/>

[6:00:58 PM] Weekend Testing: and say that your test suite would be based on the answers to the questions.

[6:02:16 PM] Balu: I think i should prepare this questions document and then prepare my suite after getting answers.

[6:02:23 PM] Balu: any other suggestions?

[6:03:41 PM] Balu: other question - there will be clients who wants their testers to work with minimum information provided. How can we take this?

WT65 – TaskCoach – Session Chat Transcript

[6:03:58 PM] Weekend Testing: provide them with the risks they are facing

[6:03:59 PM] Balu: again prepare a suite and also prepare a doc with assumptions made ?

[6:04:20 PM] Balu: cal you eloborate Ajay

[6:04:42 PM] Balu: risks - to indetify them you need information from them right?

[6:05:35 PM] Weekend Testing: The risks your test team & the customer might face due to lack of information

[6:06:13 PM] Weekend Testing: Ex: If you don't know what is the customer base due to lack of information,. you run the risk of testing for incorrect customer base & losing lot of time & money

[6:06:40 PM] Balu: Ok. basically we should let the cleint know what they'd loose with not providing enough info.

[6:06:51 PM] Weekend Testing: yes.

[6:06:52 PM] Balu: thats clear.

[6:07:07 PM] Balu: any more suggestions guys?

[6:07:32 PM] Balu: i think we can call it off if none. we're already beyond the time scheduled

[6:07:48 PM] Weekend Testing: Yes, Thanks :)

[6:07:53 PM] Weekend Testing: An interesting session.

[6:08:07 PM] Balu: Thanks Ajay. Thank you peer group :) USEful and interesting session

[6:09:06 PM] Selim Mia: Thanks WT for this useful session

[6:09:13 PM] Selim Mia: Thanks to All

[6:09:20 PM] Weekend Testing: Thanks everyone :) See you in next session!

[6:09:26 PM] Priyank Shah: Thanks to all and WT

[6:09:33 PM] Priyank Shah: Good bye to all

[6:09:37 PM] Priyank Shah: Happy testing

[6:09:50 PM] Ravisuriya: Thanks for learning, I got from all in this session.
