[4:01:44 PM] Weekend Testing: <b> Today's mission is very simple: </b>

The programmer of www.myswar.com wants you to register as a user, note down any issues you find. If you have any suggestions to improve the site, feel free to do so.

At the end of the testing session, be ready with your testing notes/report with bugs/suggestions/issues.

[4:02:15 PM] priyabhide: all right ! sounds good !

[4:02:19 PM] || Shailendra ||: ok

[4:02:27 PM] Jasminka Puskar: ok yep sounds good

[4:02:49 PM] vamshi: what kind of issues should find?

[4:03:11 PM] Weekend Testing: Anything you feel is an issue to the user is a issue

[4:03:31 PM] Weekend Testing: you can decide on the quality criteria in particular if you want

[4:03:56 PM] Weekend Testing: or focus on a broader area too

[4:05:04 PM] vamshi: there are so many modules there. which one to test and find out the issue ?

[4:05:14 PM] madhusudhan: test only for registration?

[4:05:43 PM] Weekend Testing: The entire site is open for testing, Its upto you to pick few modules or work on the entire site

[4:06:01 PM] || Shailendra ||: i got a bug/issue

[4:30:14 PM] Steveland Daniels: question - Does the customer have a priority on what they want testing

[4:30:50 PM] Rasmus Koorits: anyways.. am I right in that "email id" seems to be mostly used in India?

[4:31:52 PM] Jasminka Puskar: no i wouldn't think so, i've seen that on many sites, and i don't think they all were from india.

[4:32:11 PM] Weekend Testing: The priority seems to be on usability and overall experience

## WT71 - MySwar Testing

---

[5:12:27 PM] Steveland Daniels: Experience was good but as always - Time is split between testing and family commitments so have to be focused when I do get a chance to test. The site was easy to navigate and did not have that many features to get bogged down.

[5:12:39 PM] Sakthi: Weekend testing

[5:12:46 PM] Sakthi: where should i send my report

[5:12:52 PM] Weekend Testing: you can send it here

[5:12:58 PM] Sakthi: k

[5:13:08 PM] Weekend Testing: Steve - have you participated before in WT?

[5:13:17 PM] Steveland Daniels: once - WTA with matthew

[5:13:31 PM] Steveland Daniels: not matthew

[5:13:33 PM] Steveland Daniels: michael

[5:13:36 PM] Weekend Testing: Michael Larsen

[5:13:37 PM] Jasminka Puskar: I agree with Steve, that it didn't have many complicated features.

[5:13:55 PM] \*\*\* Sakthi sent Final Report.docx \*\*\*

[5:13:59 PM] Weekend Testing: cool, any specific approach you followed Steve?

[5:14:18 PM] Steveland Daniels: focused area testing

[5:14:35 PM] Steveland Daniels: pproach was to focus on one area of the application instead of trying to search the whole site, so I focus on the log in features and also kept in mind that while everyone might be searching around the same path, I was thinking at the other end

Does it send the name in plain text

Are settings consistent

What happens if you cancel things

What happens if you keep things the same.

I also use tools to make my testing more effiecent and not harder, so will use tools such as link checkers and spelling checkers

## WT71 - MySwar Testing

---

[5:15:01 PM] Sakthi: Steve which tool u r using for checking the link

[5:15:09 PM] Weekend Testing: nice. and for spell check?

[5:15:12 PM] Steveland Daniels: its a firefox plugin

[5:15:31 PM] Sakthi: name

[5:15:38 PM] Rasmus Koorits: never thought of running a spellchecker on a website, cool :)

[5:15:51 PM] zeacuss ebso: nice trick

[5:15:58 PM] Sakthi: can u tell pulgin name, so that I can download

[5:16:05 PM] Steveland Daniels: just seach for Check page links

[5:16:15 PM] Steveland Daniels: i think

[5:16:47 PM] Weekend Testing: nice. Any specific learning from this session/

[5:17:10 PM] Steveland Daniels: i'm from uk

[5:17:11 PM] Sakthi: This is the first time, I am testing with time constrains

[5:17:33 PM] Steveland Daniels: i have no idea what the content is but the method is the same (a catalog with titles) which is uniform across the world

[5:17:34 PM] Sakthi: I am understanding the importance of planning

[5:17:45 PM] Weekend Testing: Sakthi, lets hear Steve

[5:17:48 PM] Sakthi: I didnt plan properly while testing

[5:17:53 PM] Weekend Testing: and then you can share your experience

[5:17:56 PM] Steveland Daniels: I learnt that an hour is never enough to really test something but focusing on one area allows you to have a charter mission and get some useful bugs. It can be daunting but by having a charter and mission, you can focus your mind and spot the defects.

[5:18:12 PM] Weekend Testing: good to hear.

[5:18:20 PM] Weekend Testing: any questions to Steve, group?

[5:18:28 PM] Steveland Daniels: oh one more thing

[5:18:29 PM] Rasmus Koorits: ( link to LinkChecker plugin)

<https://addons.mozilla.org/en-US/firefox/user/539/?src=api>

## WT71 - MySwar Testing

---

[5:18:31 PM] Steveland Daniels: Ask more questions. Since it is for a site that is for a different market, there could be localisation issues that I'm not aware of. For instance, usernames and religious clashes.

[5:18:53 PM] Weekend Testing: that was indeed a good question about usernames

[5:19:01 PM] Weekend Testing: Thanks Steve.

[5:19:08 PM] Weekend Testing: who wants to share next?

[5:19:14 PM] zeacuss ebso: mee

[5:19:15 PM] Steveland Daniels: just one thing, new to wt but 7 years actually testing exp :)

[5:19:16 PM] Steveland Daniels: cool

[5:19:30 PM] Weekend Testing: Go on Zeacuss!

[5:19:39 PM] Weekend Testing: Experience shows Steve :)

[5:19:40 PM] Sakthi: Thanks steveland

[5:19:51 PM] zeacuss ebso: I'll paste everything in here :)

[5:19:55 PM] Weekend Testing: yes

[5:20:01 PM] zeacuss ebso: your approach: a random one.

experience of this session: must take a look at some security tests to learn more about it.

what did you learn: need to device a testing plan before actually testing.

any mistakes?: not that I know of.

anything u would change if given another chance?: not that I know of.

and any other notes: some tests might be redundant as we don't know what others are testing for, so why shouldn't there be some set of tasks that one can choose from so that there is no redundancy and no concentration on some parts of the project, while other part are highly concentrated upon..

[5:20:42 PM] Weekend Testing: hmm, Thanks. Everyone had the option to talk with other testers and pick tasks

[5:20:47 PM] Steveland Daniels: oh i like the last point :)

[5:21:22 PM] zeacuss ebso: ohh, maybe because I got here late, sorry

[5:21:33 PM] Weekend Testing: that's ok, no one did it here

[5:22:03 PM] zeacuss ebso: this is my 1st time testing anything

## WT71 - MySwar Testing

---

[5:22:14 PM] Weekend Testing: your first WT or first testing?

[5:22:26 PM] zeacuss ebso: 1st wt and 1st testing

[5:22:40 PM] Sakthi: It's My first WT testing

[5:23:06 PM] zeacuss ebso: I didn't find much bugs, I tested mostly the editing the profile and the rating system

[5:23:12 PM] Weekend Testing: ok.

[5:23:23 PM] Weekend Testing: Any questions to Zeacuss?

[5:23:36 PM] Steveland Daniels: first impressions when you got the mission

[5:23:49 PM] Jasminka Puskar: How did it feel for being a first time tester?

[5:24:10 PM] zeacuss ebso: @steve: u mean when I received the invitation??

[5:24:17 PM] Steveland Daniels: yeah when you saw the site

[5:24:21 PM] Steveland Daniels: what went through your head

[5:25:19 PM] Weekend Testing: next tester, be ready

[5:25:28 PM] priyabhide: Can I go next ?

[5:25:41 PM] zeacuss ebso: what should I do first... it took me awhile to just start doing anything, I just kept wandering the site with no goal in mind till someone said something about signing in and then I started :)

[5:25:41 PM] Weekend Testing: yes, let Zeacuss finish

[5:25:59 PM] Weekend Testing: are you not a tester?/

[5:26:03 PM] zeacuss ebso: @Jasminka: it felt nice

[5:26:24 PM] Steveland Daniels: one more q pls

[5:26:52 PM] zeacuss ebso: no, I'm a developer, I just graduated, but no experience in testing

[5:26:59 PM] Sakthi: Zeacuss: Now what do u think about testing

[5:27:13 PM] Weekend Testing: Excellent question Sakthi :)

[5:27:34 PM] Weekend Testing: Good try Zeacuss for first timer

[5:27:48 PM] zeacuss ebso: it gives you a chance to see the project from other points of views, I think it should help in developing (putting testing in mind)

## WT71 - MySwar Testing

---

[5:27:57 PM] Steveland Daniels: tip - like your code ,break it down into chunks

[5:28:04 PM] Steveland Daniels: how did you feel about testing knowing that there were no requirements in front of you?

[5:28:28 PM] Sakthi: Good question Steveland

[5:28:40 PM] zeacuss ebso: I had to make my own

[5:28:46 PM] Steveland Daniels: or....

[5:28:54 PM] Weekend Testing: due to time constraints, we will move on with others...

[5:29:03 PM] Weekend Testing: Thanks Zeacuss. Good to have you

[5:29:08 PM] Jasminka Puskar: well done zeacuss

[5:29:11 PM] zeacuss ebso: no, thank you

[5:29:16 PM] Steveland Daniels: :)..no prob

[5:29:22 PM] Weekend Testing: Priya?

[5:29:29 PM] Steveland Daniels: ps - the help file is a requirement doc of sorts :)

[5:29:30 PM] Steveland Daniels: brb

[5:29:34 PM] priyabhide: here we go.....

[5:29:41 PM] priyabhide: Overall it was wonderful. The Login experience was off. I used a completely negative testing approach just to break the site :)

i should have walked myself through the albums and user reviews which is the main feature for this site.

The site does not have many features as such.

[5:30:10 PM] Weekend Testing: Experience of WT? Any learning? How different from daily testing

[5:30:58 PM] priyabhide: I am very glad to join WT. It was wonderful to meet or I should say E-meet so many testers

[5:31:25 PM] Sakthi: Priya: Did u feel time pressure

[5:31:35 PM] priyabhide: I got to learn new things like the spell tester and check link plug in availability

[5:31:54 PM] priyabhide: I defitely felt a time pressure

[5:32:07 PM] priyabhide: At the end I felt I wish I had more time

[5:32:10 PM] Jasminka Puskar: Me too, I didn't know about spell check plug ins. good tips here.

## WT71 - MySwar Testing

[5:32:32 PM] Sakthi: Thanks Steve for providing those information

[5:32:46 PM] Weekend Testing: Any questions Priya?

[5:33:00 PM] Sakthi: Priya: How much time, it took for you to get familiarise with the application

[5:33:04 PM] priyabhide: Will we be able to see the comprehensive report for this site ?

[5:33:30 PM] Jasminka Puskar: same question as priya

[5:33:34 PM] priyabhide: Just to learn more as to what other testers found ? how are they using different approaches etc

[5:33:56 PM] Sakthi: [5:34 PM] Sakthi:

<<< Priya: How much time, it took for you to get familiarise with the application

[5:33:59 PM] Jasminka Puskar: i want it too for the same purpose

[5:34:01 PM] Weekend Testing: yes.it will be on [www.weekendtesting.com](http://www.weekendtesting.com)

[5:34:26 PM] priyabhide: ok great

[5:34:28 PM] priyabhide: ok about time for familiarising the site

[5:34:28 PM] Weekend Testing: Thanks Priya... who's next

[5:34:37 PM] priyabhide: it did not take me much time since it does not have much features

[5:34:38 PM] madhusudhan: mine

[5:34:44 PM] Weekend Testing: yes Madhu

[5:34:49 PM] priyabhide: and the concept is pretty easy

[5:34:53 PM] madhusudhan: My Approach: Explore each and every part of the website i.e Exploratory testing

Learning : Learning to find bugs and simultaneously prepare report

Experience: Testing a web based application with out knowing the domain

[5:36:17 PM] Weekend Testing: ok, any specific task, you spent a lot of time?

[5:36:34 PM] madhusudhan: registering the new user

[5:37:20 PM] madhusudhan: i was able to register new user of same name with different case

## WT71 - MySwar Testing

---

[5:37:37 PM] Jasminka Puskar: wow, good find madhu

[5:37:37 PM] Weekend Testing: how much time do you think you need for complete testing?

[5:37:38 PM] zeacuss ebso: nice one

[5:37:45 PM] Sakthi: Madhu: It's a new information

[5:37:46 PM] Sakthi: which you have given

[5:38:00 PM] madhusudhan: time was not enough

[5:38:09 PM] Sakthi: Madhu: what made you think that way

[5:38:19 PM] Sakthi: trying user name with different case

[5:38:47 PM] madhusudhan: i applied it in one of project of testing

[5:39:22 PM] Sakthi: Can you say some other things, which would be helpful in checking the registration page

[5:39:35 PM] madhusudhan: also i was able to register providing wrong email id

[5:39:50 PM] Sakthi: Wrong or in-valid email id

[5:40:13 PM] madhusudhan: invalid email id that doesnot exists

[5:40:34 PM] zeacuss ebso: how can u tell that it doesnot exist

[5:40:37 PM | Edited 5:40:47 PM] Jasminka Puskar: what do you mean by wrong e-mail? an e-mail that doesn't exist at all or "hjhjgg@jhkhjh.hujgugyu"

[5:40:47 PM] Weekend Testing: good questions...

[5:40:56 PM] Sakthi: It's in-valid id

[5:41:10 PM | Edited 5:41:27 PM] zeacuss ebso: but u can't activate the account with that

[5:41:16 PM] madhusudhan: email id which is not created in any of google yahoo rediff

[5:41:21 PM] madhusudhan: etcc

[5:41:50 PM] Weekend Testing: cool Madhu

[5:41:53 PM] Weekend Testing: lets move on

[5:41:56 PM] Weekend Testing: who's next

[5:41:59 PM] Rasmus Koorits: actually, complete checking of an email address is almost impossible - most sites have a "pretty good" email checker, NONE have a flawless one

## WT71 - MySwar Testing

---

[5:42:00 PM] madhusudhan: yes we cant activate the account

[5:42:16 PM] Weekend Testing: agree @Rasmus

[5:42:24 PM] Rasmus Koorits: I think the best email validator out there was like 3000 lines of code and still lacking

[5:42:31 PM] Sakthi: RAMUS you are right

[5:42:38 PM] Weekend Testing: who's next

[5:42:43 PM] Rasmus Koorits: Can I?

[5:43:04 PM] Jasminka Puskar: gentlemen first lol

[5:43:06 PM] Rasmus Koorits: Approach:

Mostly improvised and noticed obvious UI issues. Spent first 30 minutes on registration form and "my account". Then switched to security because it seemed lacking.

[5:43:12 PM] Sakthi: ha ha ha

[5:43:23 PM] Rasmus Koorits:

Experience:

Sites from foreign countries can be more easily affected by character issues öüöä etc.

Getting a balance between testing/taking notes went well today, but still needs more attention.

First time to hijack an account through forgot password feature (although I'm not sure forgot password was

a necessary step)

[5:43:41 PM] Rasmus Koorits: Mistakes: Not a lot of structure in my approach. Should have set clearer goals.

[5:43:49 PM] Rasmus Koorits: Learning: seems like there are two sides to a website: common (UI, registration, security, etc) and domain (music in this example)

[5:43:57 PM] Weekend Testing: btw, I need my password back ;)

[5:44:02 PM] Rasmus Koorits: it's "password" ;)

[5:44:12 PM] Rasmus Koorits: also, change your email ;)

[5:44:43 PM] Rasmus Koorits: also, I noticed that I could not find a popular album for testing a few things

## WT71 - MySwar Testing

---

[5:44:47 PM] Weekend Testing: hmm

[5:44:52 PM] Rasmus Koorits: and only later realized that this was a BUG!

[5:44:53 PM] Weekend Testing: i changed my password

[5:45:29 PM] Weekend Testing: nice, good bugs

[5:46:04 PM] Weekend Testing: how will you manage time again?

[5:46:30 PM] Rasmus Koorits: my main problem is how much detail to put into bug reports

[5:46:49 PM] Rasmus Koorits: I usually just want to make rough notes and then continue testing

[5:47:04 PM] Weekend Testing: the report was good.

[5:47:12 PM] Weekend Testing: any questions?

[5:47:18 PM] Rasmus Koorits: level of detail might depend on client too

[5:48:06 PM] Jasminka Puskar: just want to say well done Rasmus, thinking of new tests, such as hijacking and characters.

[5:48:17 PM] Weekend Testing: nice.

[5:48:21 PM] Weekend Testing: who's next

[5:48:24 PM] Rasmus Koorits: that's just common here

[5:48:27 PM] Sakthi: I

[5:48:36 PM] Rasmus Koorits: when your name contains those characters

[5:49:07 PM] Sakthi: Ramus: I didnt understand what u r saying

[5:49:22 PM] Rasmus Koorits: names in Estonia often contain special characters

[5:49:39 PM] Rasmus Koorits: mine does not, but my coworker's last name was Kõnnussaar

[5:49:52 PM] Sakthi: Nice thing to tell

[5:50:05 PM] Weekend Testing: ok, we have just ten mins

[5:50:11 PM] Weekend Testing: who's pending?

[5:50:20 PM] Sakthi: I

[5:50:30 PM] Weekend Testing: please

[5:50:33 PM] Jasminka Puskar: me too

## WT71 - MySwar Testing

[5:50:47 PM] Sakthi: First of all let me tell the mistakes I did

[5:50:59 PM] Sakthi: 1. I didnt plan properly

[5:51:17 PM] priyabhide: sorry guys but I have to go now. I wish to meet you all next week..... This is addictive :)

[5:51:24 PM] Sakthi: 2. I don't know what to test throughly

[5:51:41 PM] Sakthi: [5:52 PM] priyabhide:

<<< This is addictive :)

[5:51:44 PM] Sakthi: what do u mean by that

[5:52:11 PM] Jasminka Puskar: Bye Priya. Hope you had fun. Tack care and all the best. Happy testing!!!

[5:52:56 PM] Sakthi: 3. I didnt prepare the bug report simultaneously

[5:53:12 PM] Weekend Testing: hope this session was useful for you

[5:53:16 PM] Sakthi: Yes

[5:53:27 PM] Weekend Testing: due to time constraints, lets hear Jasminka.

[5:53:31 PM] priyabhide: yup absolutely thanks ! bye

[5:53:40 PM] Jasminka Puskar: My Formalities

Overall approach: I did some Exploratory Testing.

Experience: No WT experience

Session: this was quite hectic, there is sooo much one can test: policy, FAQ, etc. You think it's simple and there is not much, but then you notice many things and think, "what if there is something wrong with the security code too" for example and bunch of other things. I wanted to test much more. But inbetween doing that and following the chat conversations on Skype it made it harder, more challanging. But I guess that is part of Exploratory Testing, do be ready for anything, expect the unexpected, answer questions from others of potential problems (as Ajay did now and then) and report short status, while in the middle of the pressured testing activity.

I guess I learned to handle hectic testing such as this one better. Never did any testing like this before. I loved it.

If I had more time I would have explored more, other parts that are important for a user.

## WT71 - MySwar Testing

---

Mistakes: better planning and take a bit more time with it. i just rushed in and tested whatever there is to test that is in the registration part. But i know more ideas would have come up if more time was given. So good planning is important. My problem is I want test EVERYTHING. I need to learn to focus on one part at a time and go deep with it.

[5:54:19 PM] Weekend Testing: nice

[5:54:36 PM] Weekend Testing: Thanks Sakthi & Jasminka.

[5:54:49 PM] Sakthi: Thanks WT

[5:54:51 PM] Jasminka Puskar: No prob, thank you for this session

[5:54:51 PM] Weekend Testing: one line impressions of this session?

[5:55:00 PM] Jasminka Puskar: awesome

[5:55:08 PM] Sakthi: TOUGH

[5:55:10 PM] Weekend Testing: others?

[5:55:19 PM | Edited 5:56:11 PM] Rasmus Koorits: everyone seems to think that more planning is required

[5:55:25 PM] Rasmus Koorits: (and awesome :))

[5:55:30 PM] zeacuss ebso: addictive

[5:55:36 PM] zeacuss ebso: :)

[5:56:04 PM] Weekend Testing: and one line for the programmer?

[5:56:27 PM] Jasminka Puskar: when will the whole report be uploaded to weekendtesting.com?

[5:57:24 PM] Weekend Testing: it should be up my tuesday max but don't be surprised if its up in an hr ;)

[5:57:31 PM | Edited 5:57:48 PM] Jasminka Puskar: i thought it was nice that a programmer joined

[5:57:49 PM] Sakthi: Ya u r right Jasminka

[5:58:07 PM] zeacuss ebso: u mean, all of u r not programmers??

[5:58:17 PM] Weekend Testing: We are testers :)

[5:58:21 PM] Jasminka Puskar: nope, I know ZERO of programming

[5:58:29 PM] zeacuss ebso: wow

[5:58:48 PM] Rasmus Koorits: some testers know a lot, some don't

## WT71 - MySwar Testing

---

[5:58:53 PM] zeacuss ebso: So, how would u tell how the bug should be fixed??

[5:59:11 PM] Weekend Testing: we will inform the issue

[5:59:13 PM] Sakthi: The same with me

[5:59:18 PM] Weekend Testing: programmer will fix it :)

[5:59:22 PM] Sakthi: I am ZERO in programming

[5:59:28 PM] Jasminka Puskar: yep same here

[5:59:44 PM] zeacuss ebso: hmm

[5:59:53 PM] Rasmus Koorits: zeacuss, what if you find a bug in some piece of software that somebody else wrote?

[6:00:04 PM] Weekend Testing: ok, we had a great session. Thank you everyone. Please feel free to blog/tweet/discuss about weekend testing

[6:00:06 PM] zeacuss ebso: in college we used to do every thing, but we didn't focus much on testing

[6:00:07 PM] Rasmus Koorits: you cant be sure how he wrote it

[6:00:22 PM] Weekend Testing: we are information providers Zeacuss

[6:00:23 PM] Rasmus Koorits: thanks for hosting this awesome session :)

[6:00:28 PM] zeacuss ebso: but u can have an idea

[6:00:32 PM] Sakthi: Thanks

[6:00:43 PM] zeacuss ebso: u might have wrote something similar before

[6:00:51 PM] madhusudhan: thanks for the session

[6:00:53 PM] Jasminka Puskar: thanks so much Weekend Testing, good hosting.

[6:00:57 PM] Weekend Testing: See you all next weekend... I have not written any major code before.

[6:01:07 PM] Rasmus Koorits: see you :)

[6:01:15 PM] Sakthi: see you

[6:01:16 PM] zeacuss ebso: I wrote thouthands of lines before

[6:01:19 PM] Jasminka Puskar: see you.

[6:01:21 PM] Sakthi: byee
